

RACK SCREWS AND CAGE NUTS

Kendall Howard: Your source for premium American Made rackmount hardware

TRUSS HEADED SOLUTION

Kendall Howard's superior, quality American-made screws is your only choice for installing rackmount shelves, cable managers, servers, networking, A/V, and other electronic equipment. Truss-headed and with a straight pointed section below the thread, these American-made quality screws easily install and are self-guided to prevent accidental stripping.

CHANGE THE HARDWARE NOT THE RAILS

Kendall Howard's premium American-made cage nuts provide a secure and reliable method for attaching equipment to universal racks, server enclosures, open frame rails, and wall-mounted cabinets. Their unique design features wings that compress when inserted into punched square holes in the panel railings – offering greater stability than traditional slide-on cage nuts.
