## SIEMENS

## Data sheet

## US2:17HUG92BF15

Non-reversing motor starter, Size 3, Three phase full voltage, Solid-state overload relay, OLR amp range 25-100A, 110V 50Hz / 120V 60Hz coil, Combination type, 100A fusible disconnect, 100A/600V fuse clip, Enclosure NEMA type 1, Indoor general purpose use, Standard width enclosure

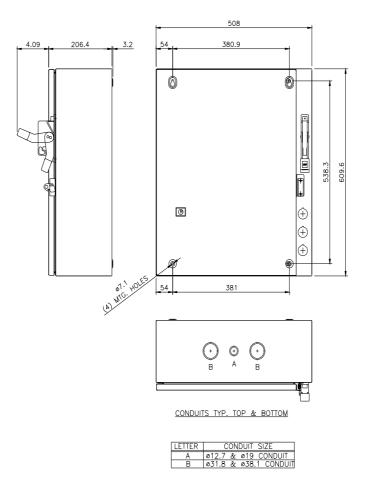

| Figuresir | nilar |
|-----------|-------|
|-----------|-------|

| product brand name   | Class 17  |
|--|---|
| design of the product  | Non-reversing motor starter with fusible disconnect |
| special product feature  | ESP200 overload relay                               |
| General technical data   |   |
| weight [lb]  | 52 lb   |
| Height x Width x Depth [in]  | 24 × 20 × 8 in                                      |
| touch protection against electrical shock                                  | NA for enclosed products                            |
| installation altitude [ft] at height above sea level maximum               | 6560 ft   |
| ambient temperature [°F]   |   |
| <ul> <li>during storage</li> </ul>   | -22 +149 °F   |
| during operation   | -4 +104 °F  |
| ambient temperature  |   |
| <ul> <li>during storage</li> </ul>   | -30 +65 °C  |
| during operation   | -20 +40 °C  |
| country of origin  | USA   |
| Horsepower ratings   |   |
| yielded mechanical performance [hp] for 3-phase AC motor                   |   |
| <ul> <li>at 200/208 V rated value</li> </ul>                               | 0 hp  |
| <ul> <li>at 220/230 V rated value</li> </ul>                               | 0 hp  |
| <ul> <li>at 460/480 V rated value</li> </ul>                               | 50 hp   |
| <ul> <li>at 575/600 V rated value</li> </ul>                               | 50 hp   |
| Contactor  |   |
| size of contactor  | NEMA controller size 3                              |
| number of NO contacts for main contacts                                    | 3   |
| operating voltage for main current circuit at AC at 60 Hz maximum          | 600 V   |
| operational current at AC at 600 V rated value                             | 90 A  |
| mechanical service life (switching cycles) of the main<br>contacts typical | 500000  |
| Auxiliary contact  |   |
| number of NC contacts at contactor for auxiliary contacts                  | 0   |
| number of NO contacts at contactor for auxiliary contacts                  | 1   |
| number of total auxiliary contacts maximum                                 | 7   |
| contact rating of auxiliary contacts of contactor according to UL          | 10A@600VAC (A600), 5A@600VDC (P600)                 |
| Coil   |   |
| type of voltage of the control supply voltage                              | AC  |
| control supply voltage   |   |

|   | 440.1/                               |
|---|--------------------------------------|
| at AC at 50 Hz rated value  | 110 V                                |
| at AC at 60 Hz rated value  | 120 V                                |
| holding power at AC minimum   | 14 W                                 |
| apparent pick-up power of magnet coil at AC   | 310 VA                               |
| apparent holding power of magnet coil at AC   | 26 VA                                |
| operating range factor control supply voltage rated value<br>of magnet coil   | 0.85 1.1                             |
| percental drop-out voltage of magnet coil related to the<br>input voltage   | 50 %                                 |
| ON-delay time   | 26 41 ms                             |
| OFF-delay time  | 14 19 ms                             |
| Overload relay  |                                      |
| product function  |                                      |
| <ul> <li>overload protection</li> </ul>   | Yes                                  |
| <ul> <li>phase failure detection</li> </ul>   | Yes                                  |
| <ul> <li>asymmetry detection</li> </ul>   | Yes                                  |
| <ul> <li>ground fault detection</li> </ul>  | Yes                                  |
| test function   | Yes                                  |
| external reset  | Yes                                  |
| reset function  | Manual, automatic and remote         |
| trip class  | CLASS 5 / 10 / 20 (factory set) / 30 |
| adjustable current response value current of the current-<br>dependent overload release                               | 25 100 A                             |
| tripping time at phase-loss maximum   | 3 s                                  |
| relative repeat accuracy  | 1 %                                  |
| product feature protective coating on printed-circuit board   | Yes                                  |
| number of NC contacts of auxiliary contacts of overload relay   | 1                                    |
| number of NO contacts of auxiliary contacts of overload relay   | 1                                    |
| operational current of auxiliary contacts of overload relay   |                                      |
| • at AC at 600 V  | 5 A                                  |
| • at DC at 250 V  | 1 A                                  |
| contact rating of auxiliary contacts of overload relay according to UL  | 5A@600VAC (B600), 1A@250VDC (R300)   |
| insulation voltage (Ui)   |                                      |
| <ul> <li>with single-phase operation at AC rated value</li> </ul>   | 600 V                                |
| <ul> <li>with multi-phase operation at AC rated value</li> </ul>  | 300 V                                |
| Disconnect Switch   |                                      |
| response value of switch disconnector   | 100A / 600V                          |
| design of fuse holder   | Class R fuse clips                   |
| operating class of the fuse link  | Class R luse clips                   |
| Enclosure   |                                      |
|   | 1                                    |
| degree of protection NEMA rating  | 1                                    |
| design of the housing   | indoors, usable on a general basis   |
| Mounting/wiring   |                                      |
| mounting position   | vertical                             |
| fastening method  | Surface mounting and installation    |
| type of electrical connection for supply voltage line-side  | Box lug                              |
| tightening torque [lbf·in] for supply   | 120 120 lbf·in                       |
| type of connectable conductor cross-sections at line-side<br>at AWG cables single or multi-stranded                   | 1x (14 1/0 AWG)                      |
| temperature of the conductor for supply maximum permissible   | 75 °C                                |
| material of the conductor for supply  | AL or CU                             |
| type of electrical connection for load-side outgoing feeder   | Box lug                              |
| tightening torque [lbf·in] for load-side outgoing feeder  | 120 120 lbf·in                       |
| type of connectable conductor cross-sections at AWG cables for load-side outgoing feeder single or multi-<br>stranded | 1x (14 2/0 AWG)                      |
| temperature of the conductor for load-side outgoing feeder maximum permissible  | 75 °C                                |

|  | -   |  |
|--|---|--|
| material of the conductor for load-side outgoing feeder  | AL or CU  |  |
| type of electrical connection of magnet coil   | Screw-type terminals                                |  |
| tightening torque [lbf·in] at magnet coil  | 5 12 lbf·in   |  |
| type of connectable conductor cross-sections of magnet<br>coil at AWG cables single or multi-stranded  | 2x (16 12 AWG)                                      |  |
| temperature of the conductor at magnet coil maximum permissible  | 75 °C   |  |
| material of the conductor at magnet coil   | CU  |  |
| type of electrical connection for auxiliary contacts   | Screw-type terminals                                |  |
| tightening torque [lbf·in] at contactor for auxiliary contacts   | 10 15 lbf·in  |  |
| type of connectable conductor cross-sections at contactor<br>at AWG cables for auxiliary contacts single or multi-<br>stranded   | 1x (12 AWG), 2x (16 14 AWG), 2x (18 16 AWG)         |  |
| temperature of the conductor at contactor for auxiliary<br>contacts maximum permissible  | 75 °C   |  |
| material of the conductor at contactor for auxiliary contacts  | CU  |  |
| type of electrical connection at overload relay for auxiliary<br>contacts  | Screw-type terminals                                |  |
| tightening torque [lbf·in] at overload relay for auxiliary contacts  | 7 10 lbf·in   |  |
| type of connectable conductor cross-sections at overload<br>relay at AWG cables for auxiliary contacts single or multi-<br>stranded  | 2x (20 14 AWG)                                      |  |
| temperature of the conductor at overload relay for auxiliary contacts maximum permissible  | 75 °C   |  |
| material of the conductor at overload relay for auxiliary contacts   | CU  |  |
| Short-circuit current rating   |   |  |
| design of the fuse link for short-circuit protection of the main circuit required  | 10kA@600V (Class H or K); 100kA@600V (Class R or J) |  |
| certificate of suitability   | NEMA ICS 2; UL 508; CSA 22.2, No.14                 |  |
