**AM50W-NZ**

Enclosed

Aimtec's AM50W-NZ series is a 50W energy industry friendly DC-DC converter. It provides an ultra-wide input voltage range of 80-750VDC (24V output model), high efficiency up to 85% for energy sensitive applications.

This series has input under-voltage protection, output short circuit, over-current and over-voltage protection to maintain the system's stability and avoid frequent restarts. These protections greatly reduce the probability of power supply failure while enhancing the safety performance of the modular power supply and the load under abnormal working conditions.

Offering an MTBF over 300,000h and an isolation voltage up to 4000VAC, these models can be widely used in photovoltaic power generation, energy storage BMS, high voltage inverters and other related applications.

**Features**

- Ultra-wide 80~750VDC input voltage range.
- Operating Temp : -40 °C to +70 °C
- High I/O isolation voltage : 4000VAC
- Low ripple & noise : 200mV(p-p), max.
- High reliability, Long lifespan :  $\geq 300\ 000$  hrs
- Under voltage protection, output short circuit, overcurrent and overvoltage protection
- Meets 5000m altitude requirements
