

Ultra high voltage ceramic capacitors For distribution lines

FD series, MD series

FEATURES

- OFD series (rated voltage Eac:10 to 25 kV) and MD series (rated voltage Eac:7.2kV) are available
- Molded type metal screw terminals for easy mounting
- O Uses high-reliability mold resin
- O Extremely stable temperature characteristics

APPLICATION

Distribution line switches (zero-phase detection, demarcation point), traded volume detection

■ PART NUMBER CONSTRUCTION

607	10	YP	101	K	4A	Α	Α	
Product category	Internal code	Temperature characteristics	Nominal capacitance	Capacitance tolerance	Rated voltage	Voltage classification	Insulation structure	
Ultra high voltage ceramic		YP Y5P (-30 to +85°C, ±10%)	500 50pF 101 100pF	J ±5% K ±10%	3K 7.2kV 4A 10kV	A AC voltage specifications	A Mold type	
capacitors		CH CH (-30 to +85°C, 0±60ppm/°C)	251 250pF 102 1000pF	<u> </u>	4C 13kV 4D 20kV 4E 25kV			

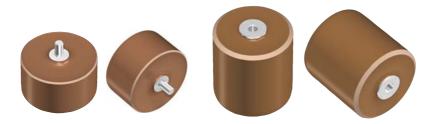

^{*} Please refer to P-3 to 4 about the product dimensions.

□OPERATING TEMPERATURE RANGE

Series	Operating temperature(°C)	Storage temperature(°C)		
FD	-30 to +85	-30 to +85		
MD	-30 to +85	-30 to +85		

The maximum operating temperature of $+85^{\circ}\text{C}$ includes capacitor self-generated heat of up to 20°C .

■ PRODUCT APPEARANCE

FD series

ELECTRICAL CHARACTERISTICS

□ CHARACTERISTICS SPECIFICATION TABLE

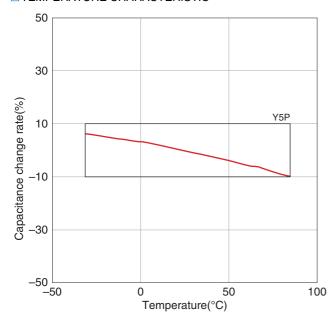

Class 2 (Temperature stable)

Temperature characteristic: Y5P($-30 \text{ to } +85^{\circ}\text{C}, \pm 10\%$)

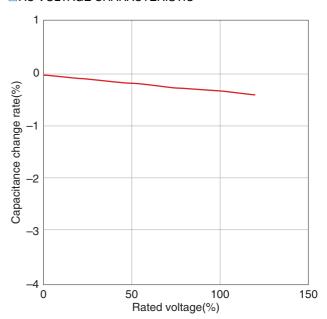

Part numbers	Sub part numbers	Rated voltage	Capacitance	Withstanding voltage [1min, in insulating liquid]	Dissipation factor ($tan\delta$)	Insulation resistance	AC corona starting voltage [3pC*]
		(kVAC)	(pF)	(kVAC)	(%) max.	(M Ω) min.	(kVAC) min.

REMINDERS FOR USING THESE PRODUCTS

Before using these products, be sure to request the delivery specifications.

SAFETY REMINDERS

Please pay sufficient attention to the warnings for safe designing when using this products.

↑ REMINDERS

(1) During transportation and storage

- Do not transport or store where the prodcuts will be exposed to high temperature or high humidity.
- Do not expose to poisonous gases such as H2SO4, HCl, or HNO3.
- · Avoid excessive impact such as that caused by falling.

(2) During operation

- Avoid contact with electrolytes such as perspiration. Do not touch with bare hands.
- Avoid excessive impact such as that caused by falling.
- Do not apply solder to stud terminals.
- Do not re-machine the terminals.

(3) Usage

- Make sure that the prodcuts are not exposed to radiant heat from chambers or transformers.
- Please contact us when using in SF6 gas.

(4) Others

The products listed on this catalog are not designed or warranted to meet the requirements of the applications listed below, whose performance and/or quality require a more stringent level of safety or reliability, or whose failure, malfunction or trouble could cause serious damage to society, person or property.

If you intend to use the products in the applications listed below or if you have special requirements exceeding the range or conditions set forth in the each catalog, please contact us.

- (1) Aerospace/aviation equipment
- (2) Transportation equipment (cars, electric trains, ships, etc.)
- (3) Medical equipment (excepting Pharmaceutical Affairs Law classification Class1,2)
- (4) Power-generation control equipment
- (5) Atomic energy-related equipment
- (6) Seabed equipment
- (7) Transportation control equipment

- (8) Public information-processing equipment
- (9) Military equipment
- (10) Electric heating apparatus, burning equipment
- (11) Disaster prevention/crime prevention equipment
- (12) Safety equipment
- (13) Other applications that are not considered general-purpose applications

When designing your equipment even for general-purpose applications, you are kindly requested to take into consideration securing protection circuit/device or providing backup circuits in your equipment.
