

Base Rotate Kit with HS-422 servo

SKU:ROB0034 Brand:Lynxmotion

INTRODUCTION

The Base Rotate Kit is perfect for rotating a large mass. It can easily support 10lbs of weight. It has five 6mm bearings to reduce the friction. It's injection molded from ultra strong ABS plastic. It fits the HS-422, HS-475, HS-485, and HS-645 servos. Other have not been tested.

The kit comes without assembly.
