

## IP67 WATER RESISTANT I/O CONNECTORS

TECHNOLOGY IN CONNECTORS™

GERMANY

As a leading manufacturer of connectors, CONEC develops, produces and markets its products around the world to customers in the machine-tool, electronics and communications industries.

CONEC has dedicated itself to make a contribution to progress in the connector industry and to satisfy its customers through innovation, quality and excellent service. Around the world, our organization operates as a customer-oriented team.

CONEC is present in numerous countries with its own branch offices and representatives. Our local sales consultants transmit all information directly to the responsible departments to keep the paths of communication short. This provides support in the local language, quick response and competent consulting.

CANADA

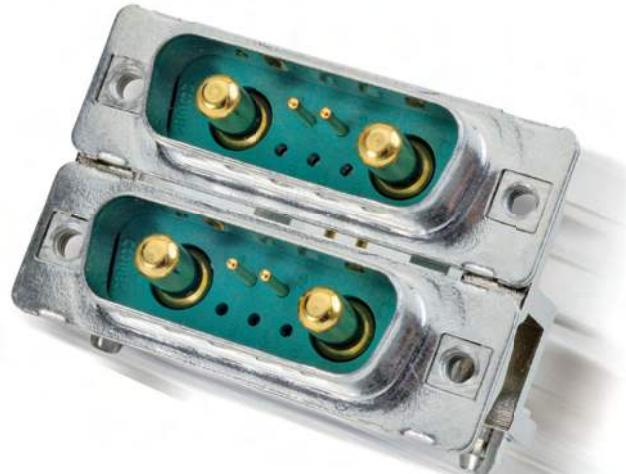

USA

CONEC designs and manufactures products in modern facilities. The products are made in accordance to the highest quality standards and industry specifications.

CONEC provides reliable and effective solutions to OEM, EMS and cable houses.

## OUR PHILOSOPHY – CUSTOMER SATISFACTION.

Quality is realized right from the beginning with Total Quality Management concept. Therefore our customers are included into all our processes, starting with design phase, first sampling, series production release and continuous sales support. The phases will be accompanied by drawings, samples and test reports. The entire quality process is documented and approved. CONEC is certified to ISO/TS16949:2002.

CONEC inhouse is equipped with modern test systems. We can verify the requirements and implement a continuous product improvement process to meet and exceed future requirements. To fulfill international and national requirements most of CONEC product series are registered by UL, CSA or VDE

## CONEC IS YOUR SPECIALIST FOR DESIGN AND PRODUCTION OF SPECIAL CUSTOMIZED PRODUCTS.

Flexibility, assurance and rapid response are required in today's market more than ever before. CONEC fulfills these demands with central order-processing and well implemented quality control systems. Statistical process control as well as just in time deliveries are a common practice. Numerous customers honored this performance by approving CONEC to a "Preferred Supplier" status.

Are you looking for application-specific solutions?  
Standard products do not meet your needs?  
The implementation deadline is tight?

CONEC experienced design team can create your solution for you:

- Special Interconnect solutions to customers specifications
- Prototypes and small series production batches
- Connectors with increased IP ratings for harsh environments.

Contact us to discuss your special requirements.

## PRODUCT LINES

### I/O Connectors

D-SUB connectors, Standard, Combination and Water Resistant; D-SUB Hoods and D-SUB accessories; Filter D-SUB Connectors, Standard, Combination and Water Resistant; Filter Adapters; Filter Plates; RJ45-IP67 Industrial Ethernet Connector System; USB 2.0-IP67 Connector System; RJ45 Magnetic Modular Jacks

### Embedded Connectors

DIN 41617 Connectors; DIN EN 60603-2 Connectors; DIN 41651 Insulation Displacement Connectors  
CompactPCI Connectors; AdvancedTCA Connectors; MicroTCA Connectors;  
PC104-, PC104+ Connectors

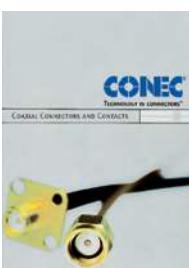

### Sensor Actor Line / Circular Connectors

M12x1 Connectors, Overmolded and Field Attachable, Sockets, Junction Boxes,  
M12x1 Connector Systems for High Temperature, Food+Beverage, Bus Systems;  
M8x1 Overmolded Connectors; 7/8" Connectors; Rund24 Connectors; Valve Connectors

### Fiber Optic

SC-LC-FC-ST-Connectors;  
Adapters; Hybrid Adapters;  
IP67 Outdoor Connectors;  
Patch cords

### Coaxial Connectors

SMA, SSMA, MMCX, TNC, N, MCX, Mixed Adapters und BNC connectors;  
D-SUB and DIN Coaxial Contacts; D-SUB and DIN High-Current Contacts

## SECTION 1

# IP67 D-SUB CONNECTORS

Connector systems able to meet special demands are needed for industrial use in harsh environments.

The water resistant connector system developed by CONEC is intended for applications where dust and water are factors.

The system includes D-Subminiature Connectors in standard and high density configurations as well as corresponding accessories, such as water resistant hoods and protective caps.

The Solid Body connector series is an advanced development of the CONEC water resistant D-SUB series.

This series is designed with a one piece, "Solid Body" zinc diecast housing. This robust design performs better to mechanical impacts during installation and operation and has less possible leak paths. It complies to current solder requirements with RoHS compliant solder temperatures.

The type of protection is defined by IEC 60529 which also specifies the suitability of electrical components for various ambient conditions.

CONEC water resistant connectors ensure a continuously secure connection compliant with the IP67 rating. They are dustproof and protect against temporary submersion in water.

**System details:**

- Standard design with metal shell and O-ring
- One piece "solid body" design available for increased mechanical stresses
- Seal in the connector, water cannot penetrate into the housing
- Available for front and rear side panel mounting
- Connector without frame for cable housing
- Special threaded parts, 4-40 UNC and M 3
- Plastic materials comply with UL 94 VO
- Machined precision contacts for heavy duty usage
- Various gold plating options available
- All conventional contact termination types available
- Various accessories, including waterproof hoods and protective caps

The following pages indicate examples from our extensive product line. For additional and detail information please contact us direct or visit us at [www.conec.com](http://www.conec.com).

# TECHNICAL DATA

<b>Materials</b>	D-Subminiature, Standard 9, 15, 25, 37 and 50 position	D-Subminiature, High Density 15, 26, 44, 62 and 78 position
<b>Insulator</b>	Polyester GF UL94 V-0	
<b>Contacts</b>	CU alloy	
<b>Contact plating</b>	Gold plated over nickel	
<b>Shell</b>	Brass tin plated (Standard) Stainless steel on request	
<b>Mechanical and electrical characteristics</b>		
<b>Test voltage U eff/NN</b>	1000 V	
<b>Working voltage</b>	125 V ≈ depending on isolation coordination (refer to DIN VDE 0110/IEC 664-1)	60 V ≈
<b>Current rating</b>	7.5 A (UL) / 5 A (CSA,VDE)	3 A (UL,VDE) / 2.5 A (CSA)
<b>Contact resistance</b>	max. 10 mΩ prior to stressing, Δ R max. 10 mΩ after stressing per DIN 41652, Part 2	
<b>Insulation resistance</b>	≥ 5 GΩ	
<b>Clearance and creepage distance</b>	contact – contact contact – earth	≥ .004"/1.0 mm ≥ .047"/1.2 mm
<b>Operating temperature</b>	– 25 °C to + 105 °C

# IP-CODE FIGURE DEFINITIONS

1. Code figure	Definition	Remark
0	Not protected	
1	Protected against access to hazardous parts by the back of the hand. Protected against fixed foreign objects $\varnothing \geq 1.969''/50\text{ mm}$ .	
2	Protected against access to hazardous parts with a finger. Protected against fixed foreign objects $\varnothing \geq .492''/12.5\text{ mm}$ .	
3	Protected against access to hazardous parts with a tool. Protected against fixed foreign objects $\varnothing \geq .098''/2.5\text{ mm}$ .	
4	Protected against access to hazardous parts with a wire. Protected against fixed foreign objects $\varnothing \geq .039''/1\text{ mm}$ .	
5	Protected against access to hazardous parts with a wire. Dust protected.	Ingress of dust is not completely blocked. But dust may not penetrate to the extent that satisfactory operation of the device or safety is impaired.
6	Protected against access to hazardous parts with a wire. Dustproof. No ingress of dust.	
2. Code figure	Definition	Remark
0	Not protected	
1	Protected against dropper.	
2	Protected against dropper when the shell is tipped as much as $15^\circ$ .	
3	Protected against spray water	Up to $60^\circ$ of either side of the vertical, such spray water shall have no harmful effects.
4	Protected against splash water	On the shell from all directions, no harmful effects shall be incurred.
5	Protected against jets of water.	
6	Protected against strong jets of water.	
7	Protected against the effects of temporary submersion in water.	Water may not ingress in a volume that would cause harmful effects when the shell is submerged in water for 30 min at a depth of 1 m.
8	Protected against the effects of continuous submersion in water.	Water may not ingress in a volume that would cause harmful effects when the shell is continuously submerged in water under conditions agreed between manufacturer and user. However, these conditions must be more stringent than those described under code figure 7.
9k	Protected against water from high-pressure or steam cleaning.	

## Explanation to spray water protected (IP) systems and their environment.

This system, described in IEC 60529, was developed to represent standard values for respective protection:

- a) Contact with, and ingress of, fixed foreign objects
- b) The ingress of liquids to which the inside is to be exposed.

The first digit describes the level of protection for life, contacting objects and the intrusion of foreign bodies. The second digit describes the level of protection against the ingress of liquids. The larger the first and second digits are, the greater afforded protection is, e.g. IP55 must also meet the requirements of all lower protection levels, such as IP22, IP23, IP34 and IP54.

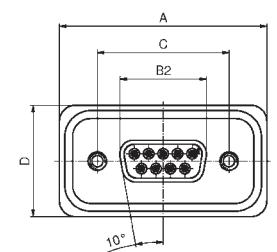

# D-SUB STANDARD – IP67 SOLID BODY

Solder cup – Precision machined contacts – For wire size AWG 20

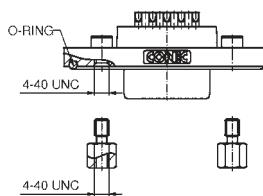

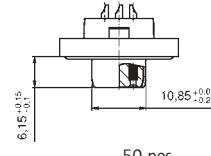

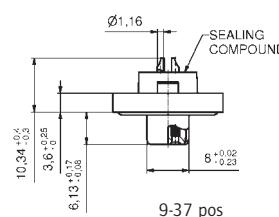

RoHS compliant

62	Mounting bracket/PCB clip	15-000923

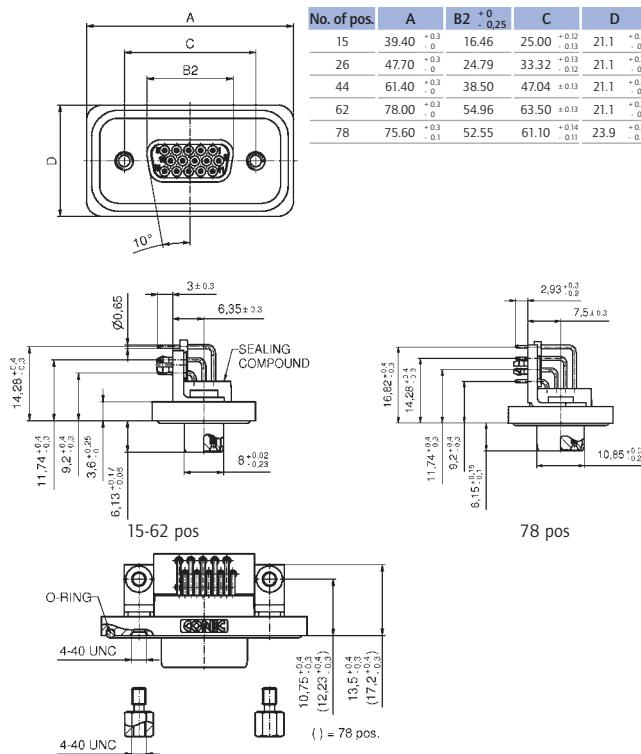

# D-SUB HIGH DENSITY – IP67 SOLID BODY

Solder pin – Angled – .362" / 11.7 mm – Precision machined contacts – Metal bracket

RoHS compliant

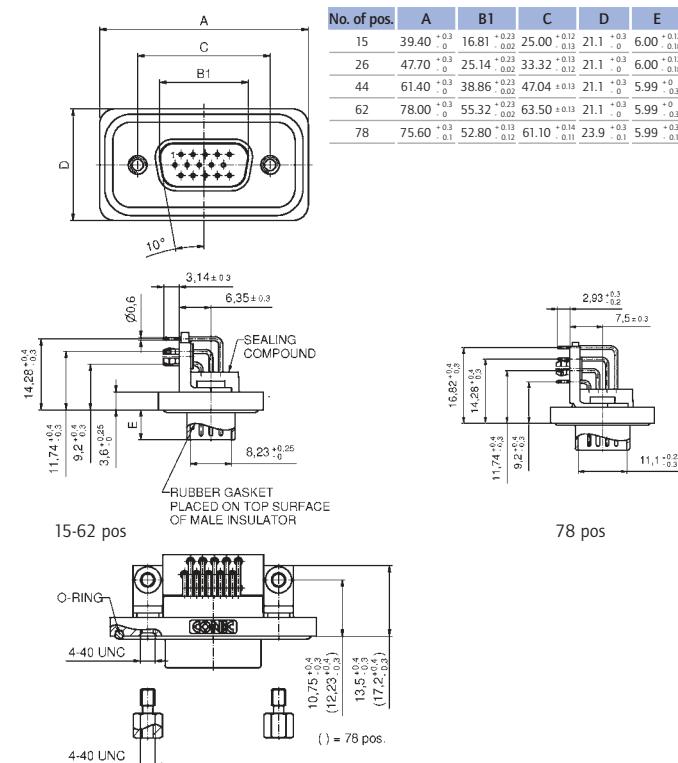

## SOCKET CONNECTOR

## DESCRIPTION

- Mounting style:  
Mounting bracket, 4-40 UNC PCB clip  
including hex locking bolt
- Quality class 3 (also available in quality class 1)
- One-piece zinc die-cast nickel plated shell
- IP67 for harsh environments, pressure-proof up to 1.45 PSI
- Higher protection on request

## SECTION 2

# IP67 FILTER D-SUB CONNECTORS

Many applications in harsh, industrial environments place additional demands on the interface.

The filtered, water resistant connector system developed by CONEC is well suited for applications that require increased EMC protection under ambient conditions where there is risk of dust and moisture.

The system includes D-Subminiature Connectors in standard and high-density designs.

This connector system designed to IEC 60529 with an IP67 rating. In order to ensure these requirements are met, special sealing measures have been taken for these connectors and their sealing frames. Special water resistant accessories and protective caps supplement the product line.

### System details:

- Metal frame with O-ring for sealing
- Seal in the connector plug- water cannot penetrate into the housing
- Available for front side or rear side panel of the enclosure
- Connector without frame for cable housing
- Special threaded parts, 4-40 UNC and M 3
- Plastic materials comply with UL 94 V0
- Machined precision contacts for heavy duty usage
- Various gold plating options available
- All conventional contact termination types available
- Special accessories, e.g. water resistant hoods and sealing caps

The following pages indicate examples from our extensive product line. For additional and detail information please contact us direct or visit us at [www.conec.com](http://www.conec.com).

## C-FILTER D-SUB STANDARD – IP67

Plug connector – Solder pin – Angled – .189"/4.8 mm –  
Precision machined contacts – Metal bracket

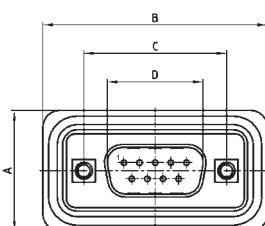

RoHS compliant – CSA listed, File No.: LR 115000-1 – UL listed, File No.: E 202784

### DESCRIPTION

- Mounting styles:
  - with 4-40 UNC or M3 threaded insert
  - with mounting bracket, PCB clip and 4-40 UNC or M3 threaded insert
  - incl. hex locking bolt
- Quality class 3 (also available in quality class 1)
- Shell: Brass tin plated (stainless steel on request)
- Nickel plated die-cast frame  
(Black plastic frame on request)

## SECTION 3

# IP67 COMBINATION D-SUB CONNECTORS

CONEC Combination D-SUB Connectors with IP67-rating are suitable for use in environments where increased protection against moisture and contamination is necessary. All IP67 protected Combination D-SUB Connectors are supplied already populated with signal, high voltage, high power or coaxial contacts. This is necessary to provide factory assurance that the connector is properly sealed thus ensuring its reliable protection in harsh environments.

The type of protection is defined by IEC 60529 which also specifies the suitability of electrical components for various ambient conditions. CONEC water resistant connectors ensure a continuously secure connection compliant with the IP67 rating. They are dustproof and protected against temporary submersion into water.

#### Power details:

- Standard design with metal frame and O-ring
- Inside seal in the connector plug - water cannot penetrate into the housing
- Available for front or rear panel mounting on the enclosure
- Connector without frame for cable mounting
- 4-40 UNC or M 3 threaded insert
- Plastic materials comply with UL 94 V0
- Machined precision contacts for heavy duty usage
- Various gold plating options available
- Basic connector dimensions - without frame - in compliance with DIN 41652 / MIL-C-24308
- Special accessories, including waterproof hoods and sealing caps

The following pages indicate examples from our extensive product line. For additional and detail information please contact us direct or visit us at [www.conec.com](http://www.conec.com).

## TECHNICAL DATA

Mechanical and electrical characteristics	Signal contacts	Coaxial contacts	High power contacts
Insulator	Polyester GF (UL 94V-0)	PTFE	
Shell	Brass tin plated (standard) / Stainless steel on request		
Contact plating	Gold plated over nickel		
Contact material	CU alloy		
Retaining clip	CU alloy		
Current rating	7.5 A (UL) / 5 A (CSA, VDE)		
Test voltage between 2 contacts shell and contact	1000 V, 50Hz 1 min.		
Resistance between mated contacts	≤ 2.7mΩ		
Insulation resistance	5GΩ	≤ 1GΩ	5GΩ
Volume resistivity	10 <sup>16</sup> Ωcm		
Dielectric with standing voltage	50KV/mm		
Impedance		50/75Ω	
Contact resistance inner- /outer conductor	≤ 2.7mΩ	≤ 2.7mΩ	≤ 1mΩ
VSWR-value at according MIL-C-39012 1.2GHz 1.5GHz 2.0GHz		≤ 1.2 ≤ 1.3 ≤ 1.5	
Dielectric with standing voltage		750 V 50Hz	
Frequency range		0-2GHz	
Working voltage	250 V	250 V	
Temperature range	-25°C to +105°C		
Degree of protection	Requirements according to IEC 60529 – IP67		
Insertion force per signal contact	≤ 3.4N	≤ 7N	≤ 7N
Extraction force per signal contact	≤ 0.2N	≤ 7N	ca. 5N
Quality class	A = Quality class 3 = 50 mating cycles B = Quality class 2 = 200 mating cycles C = Quality class 1 = 500 mating cycles

## SECTION 4

# D-SUB HOODS AND ACCESSORIES

The diversity of different applications and market requirements makes it necessary to offer a comprehensive line of hoods and backshells. The CONEC product line includes shielded hoods made of metal, plastic, metallized plastic and plastic with metal inserts.

Connectors with high current or coaxial contacts require special hoods with adapted interiors. In these cases the height of the housing is particularly important to assure faultless seating of the contacts. The cable should exit from the hood or backshell without introducing any strain on the contacts.

The input/output connector product line is supplemented by a wide array of accessories.

The various caps, hardware and latches are available for use with these D-subminiature connectors, whether standard, high density, combination or filter designs are selected.

Various materials and designs in plastic, steel or stainless steel, as well as M3 or 4-40 UNC thread designs, are deliverable as standard or on request.

A special developed hood with an IP67 rating is available to provide optimal water resistance for D-SUB Connectors.

The following pages indicate examples from our extensive product line. For additional and detail information please contact us direct or visit us at [www.conec.com](http://www.conec.com).

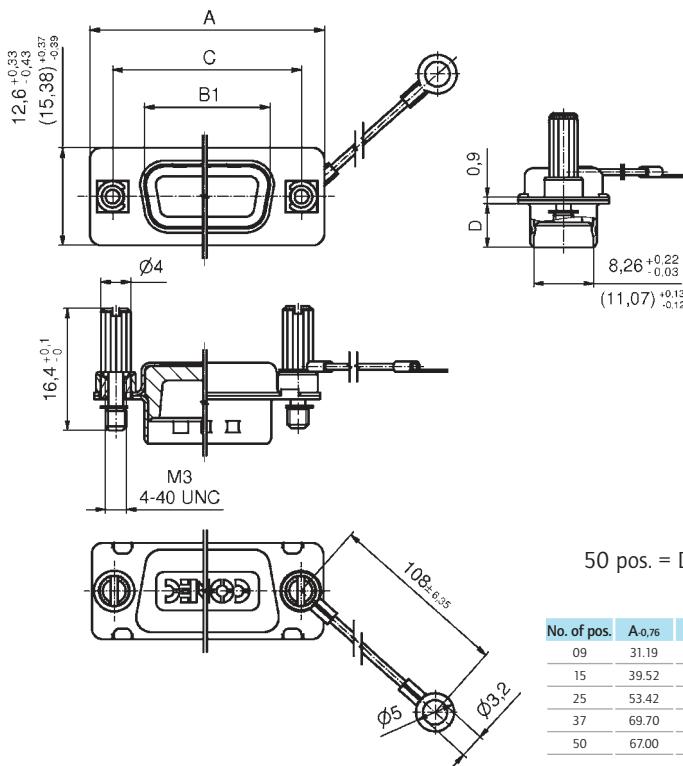

# D-SUB PROTECTION CAP – IP67

Metal design – Shielded – 9-50pos. – Jack screw – Lanyard

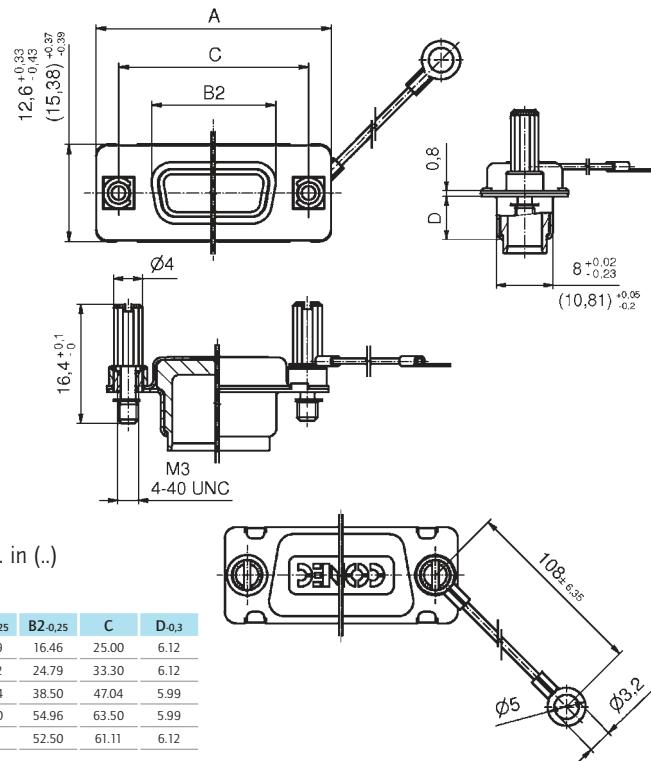

## FOR SOCKET CONNECTOR

## DESCRIPTION

- IP67 Protection cap with gasket and Lanyard
- Protection against EMI/RFI
- Material:
  - Shell: Brass tin plated
  - Lanyard: Stainless steel
  - Jack screw: Stainless steel
- Mounting style:
  - with M3 or 4-40 UNC Jack screws
- Bulk packaged

## FOR PLUG CONNECTOR

## SECTION 5

# RJ45-IP67 INDUSTRIAL ETHERNET CONNECTOR SYSTEM

---

The RJ45 connector is the most used interface in data communications.

In Ethernet networks, this proven connector assures quick, secure communications between all devices connected in a network

The ethernet network technology has now been made "industry capable" as an Industrial Ethernet version. Naturally this required some adaptation to different requirements and harsher environmental conditions. This applies equally to the connection technology employed. The focus here was to provide increased protection for the connector system against contamination and moisture (IP67 rating). Furthermore, there are also increased demands for mechanical stability, temperature resistance, vibration immunity and protection against EMI/RFI.

In addition to protection against ambient influences in a connected state, the handling aspects to make quick, reliable connections also plays an important role.

For industrial real-time-Ethernet, CONEC has developed a RJ45 connector type with a bayonet latching mechanism according to the IEC 61076-3-106 standard. This robust design with IP67 rating ensures reliable protection and easy connection under harsh environmental conditions.

### Example applications:

- Industrial production, CNC machines
- Communications equipment
- Food & Beverage and chemical process controllers
- Mass transportation
- Oil exploration
- Industrial process control
- Diagnostic and instrument
- Printers, displays
- Factory automation
- Outdoor telecommunications systems

A socket connector with IP67 rating, bayonet coupling and protective cap is available for installation into equipment.

The mating counterpart consists of a RJ45 Cat. 5e plug set with IP67 rating. This program is supplemented by preassembled patch cables with IP67 rating in various lengths and designs.

## TECHNICAL DATA

<b>Mechanical and electrical characteristics</b>	
Interface connector	RJ45 Cat. 5e per EIA/TIA-568-B2
Lock mechanism	Bayonet socket connector per IEC 61076-3-106
IP Degree of protection	IP67
Temperature range	-40°C to + 85°C
Strength of current	1.2 A max. to 25°C
Voltage	100 VDC
Contact resistance	20 mΩ max.
Insulation resistance	500 mΩ min.
Electric strength contact to contact	1000 VDC/60 sec.
Electric strength contact to metal Housing	1500 VDC/60 sec.
<b>Materials</b>	
Housing	PBT (black) or ABS metallized (nickel plated), flame protection per UL 94-V0
Fastening nut	Brass nickel plated
Housing sealing	Silicone (white)
RJ45 Socket metal housing	Copper alloy, nickel plated
RJ45 Socket and plug connector plastic housing	PBT (black), flame protection per UL 94-V0
RJ45 Socket and plug contacts	Phosphor bronze, gold plated
Connector housing	PBT (black) or ABS metallized (nickel plated), flame protection peer UL 94-V0
Metal socket coupling ring	PBT (black) or ABS metallized (nickel plated), flame protection per UL 94-V0, or zinc die-cast (nickel plated)
Cable termination	PBT (black) or brass nickel plated, flame protection per UL 94-V0
Cable seal	NBR (black)
Interface seal	Silicone (white)
RJ45 plug connector metal housing	Copper alloy, nickel plated
Protection cap	PBT (black) or ABS metallized (nickel plated), flame protection per UL 94-V0
Seal	Silicone (red)
Protection cap	PE (black)

Technical alterations are subject to change without notice.

## RJ45 INSTALLATION HOUSING SET

Inline socket connector version

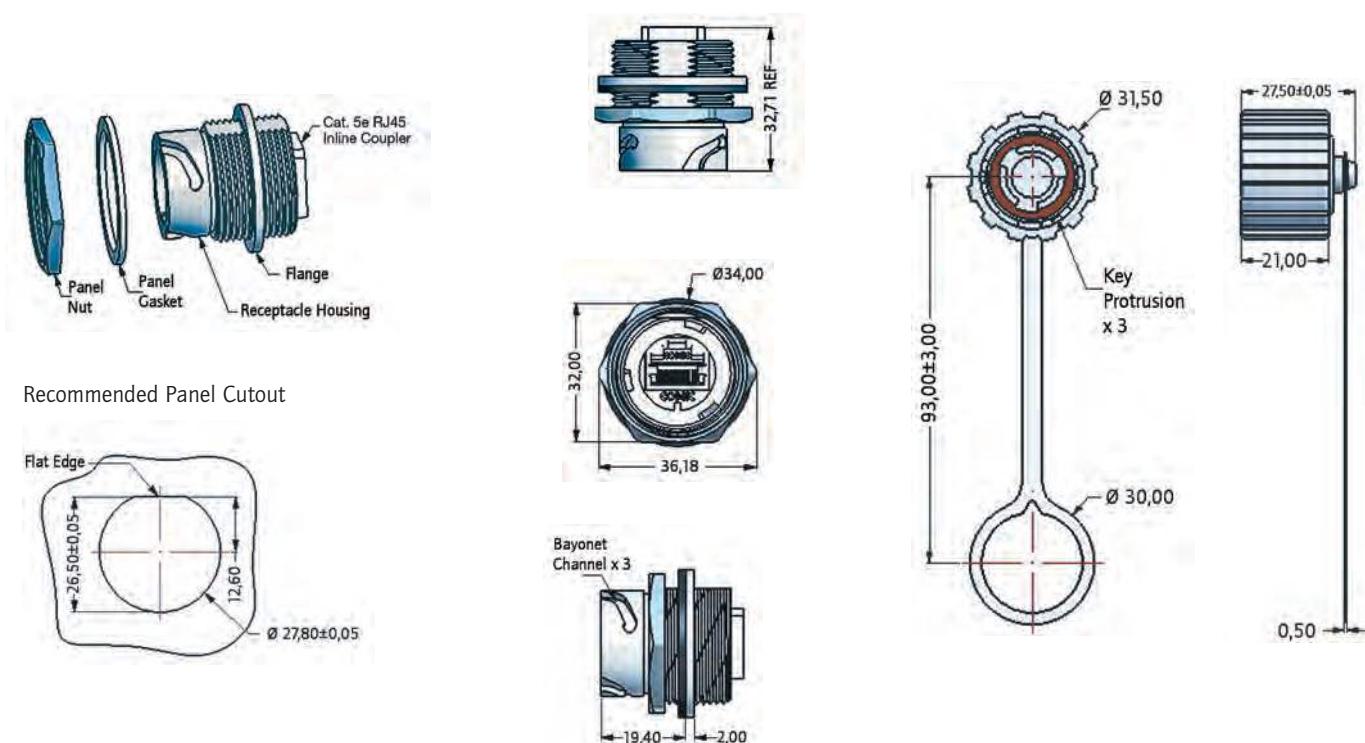

RoHS compliant

### DESCRIPTION

- For front- or rear panel mounting up to wall thickness of .013"/3.2 mm
- Design: Black plastic or metallized plastic
- Unshielded RJ45 Inline socket connector or shielded RJ45 Inline socket connector Cat.5e
- Available as a set with protection cap

### PRODUCT DRAWING

### ORDER DATA

Type	Material	RJ45 Cat.5e design	Protection cap	Part Number
Housing	Black plastic	Inline socket connector shielded		17-10009
Housing	Black plastic	Inline socket connector unshielded		17-10019
Housing	Metallized plastic	Inline socket connector shielded		17-10012
Housing	Black plastic	Inline socket connector shielded	With protection cap	17-10000
Housing	Black plastic	Inline socket connector unshielded	With protection cap	17-10020
Housing	Metallized plastic	Inline socket connector shielded	With protection cap	17-10011

## RJ45 INSTALLATION HOUSING SET

Insulation displacement termination version

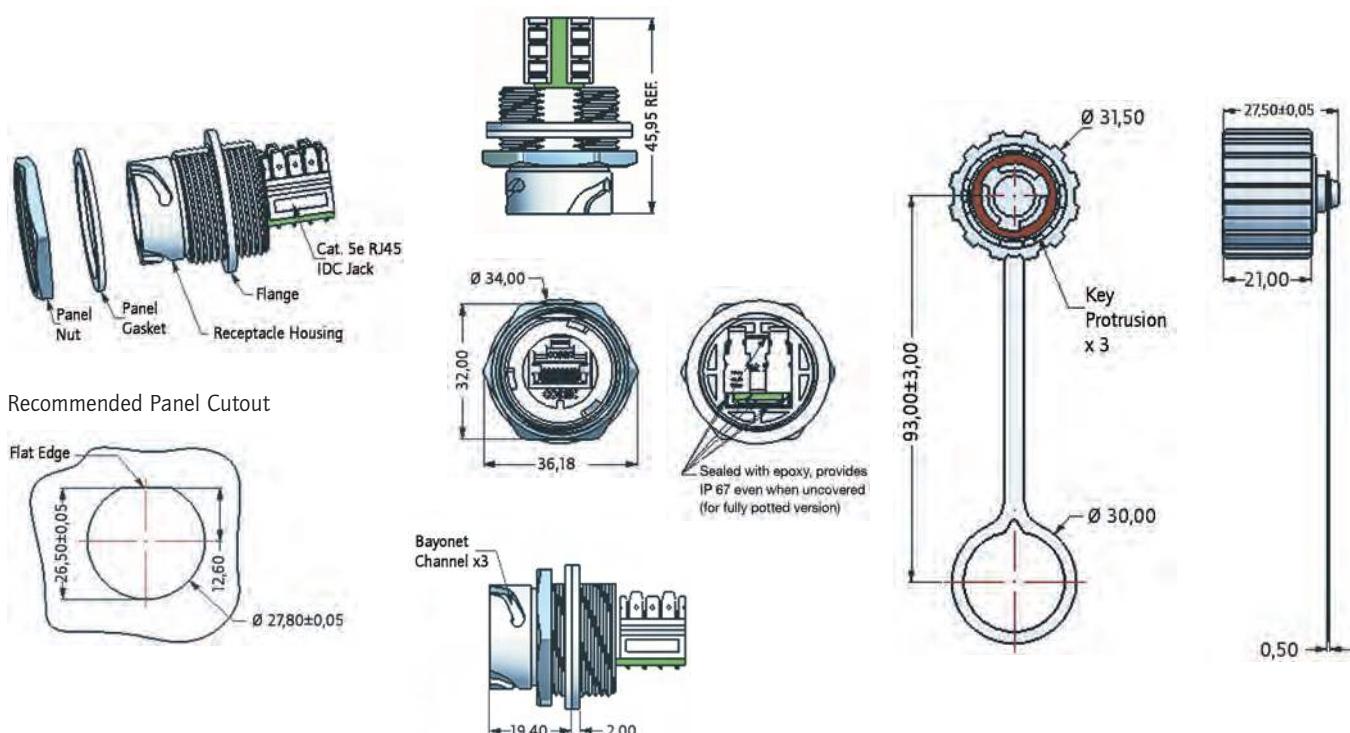

RoHS compliant

### DESCRIPTION

- For front or rear panel mounting up to wall thickness of .013"/3.2 mm
- Design: Black plastic or metallized plastic
- Shielded RJ45 plug connector, insulation displacement termination (IDC) Cat.5e
- Available as a set with protection cap

# RJ45 PLUG CONNECTOR SET

## Standard version

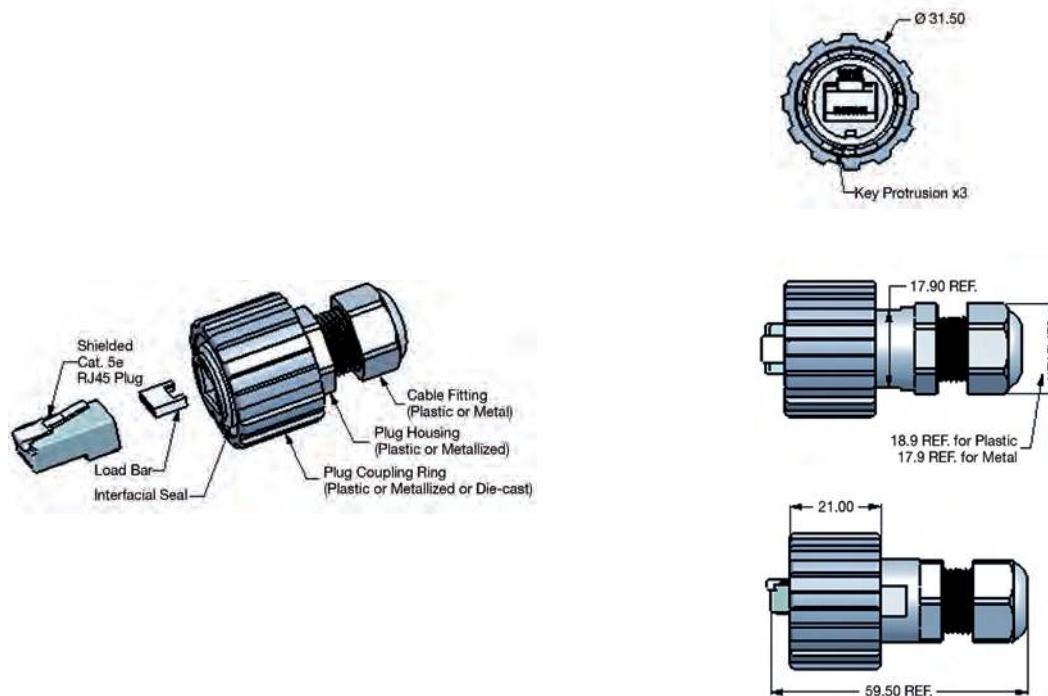

RoHS compliant

### DESCRIPTION

- Shielded RJ45 plug connector Cat.5e
- For use with solid or stranded, shielded or unshielded cable size AWG24
- Designs:
  - Housing and socket connector: black plastic
  - Housing and socket connector: metallized plastic
  - Housing: metallized plastic, socket connector and coupling ring die-cast

### PRODUCT DRAWING

### ORDER DATA

Type	Material	RJ45 Cat.5e design	Part Number

Housing	Metal	Inline socket connector unshielded	With protection cap	17-101614

## RJ45 PLUG CONNECTOR SET

Metal version – M28 threaded termination

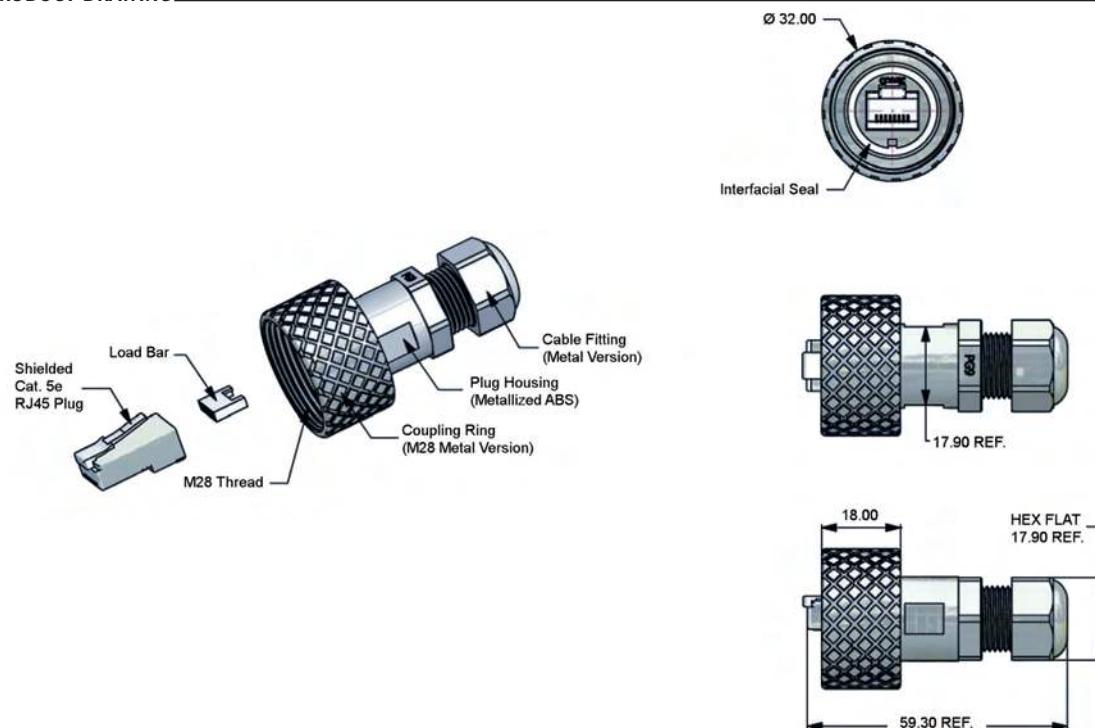

RoHS compliant

### DESCRIPTION

- Shielded RJ45 plug connector Cat.5e
- For use with solid or stranded, shielded or unshielded cable size AWG24
- Metal connector fastening ring, M28 thread
- Housing: Metallized plastic

### PRODUCT DRAWING

### ORDER DATA

Type	Material	RJ45 Cat.5e design	Part Number
Plug connector set	Metal housing/Coupling ring	Plug connector/Shielded	17-100944

## RJ45 PLUG CONNECTOR SET

M28 threaded termination – Plastic strain relief version

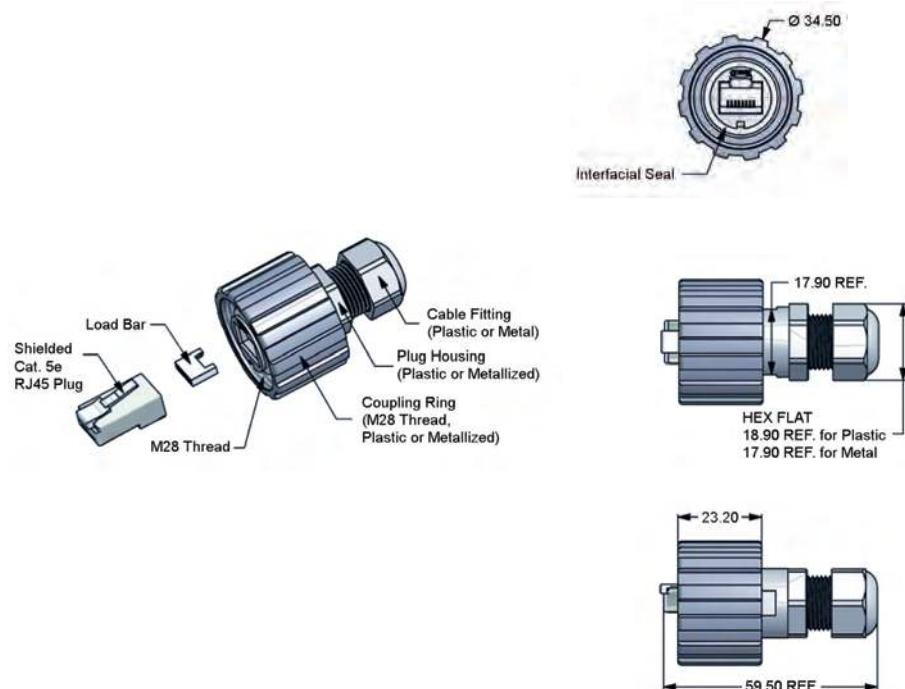

RoHS compliant

### DESCRIPTION

- Shielded RJ45 plug connector Cat.5e
- For use with solid or stranded, shielded or unshielded cable size AWG24
- Threaded connection for application inside of enclosure (IP20) to inline socket connector
- Designs:
  - M28 Housing and socket connector black plastic
  - M28 Housing and socket connector metallized plastic

### PRODUCT DRAWING

## RJ45 PATCH CORD

IP67 to IP67 – Plastic design – Bayonet plug connector

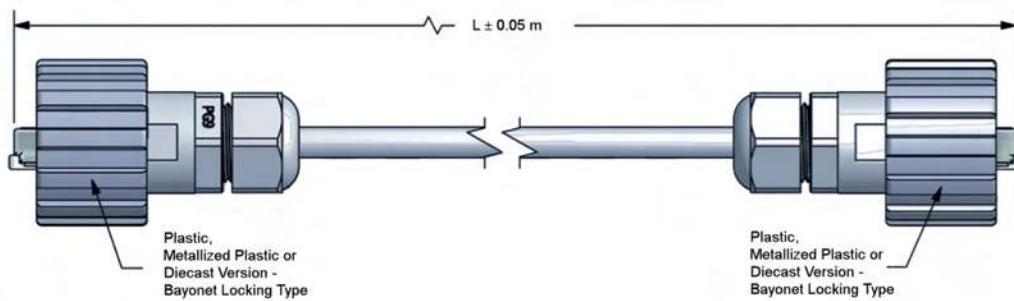

### DESCRIPTION

- Field attachable patch cord
- 2 x Industrial RJ45-IP67
- Designs:
  - Housing and plug connector: Black plastic; Cable UTP\* black
  - Housing and plug connector: Metallized plastic; Cable STP\*\* black
  - Housing: Metallized plastic plug connector and screw connection zinc die-cast, cable: STP\*\* black
- Outdoor version with cable "Drain wire" and "Waterproof tape"
- Special lengths on request

## RJ45 PATCH CORD

IP67 to IP20 – Plastic design – Bayonet plug connector

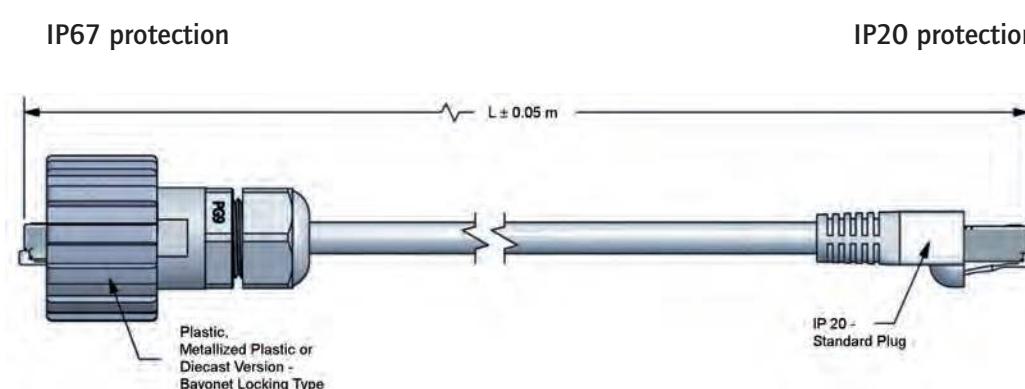

RoHS compliant

### DESCRIPTION

- Field attachable patch cord
- 1 x Industrial RJ45-IP67 – 1 x Standard RJ45-IP20
- Designs:
  - Housing and plug connector: Black plastic; Cable: UTP\* black
  - Housing and plug connector: Metallized plastic; Cable: STP\*\* black
  - Housing: Metallized plastic; plug connector and screw connection zinc die-cast; Cable STP\*\* black
- Outdoor version with cable "Drain wire" and "Waterproof tape"
- Special lengths on request

## RJ45 PATCH CORD

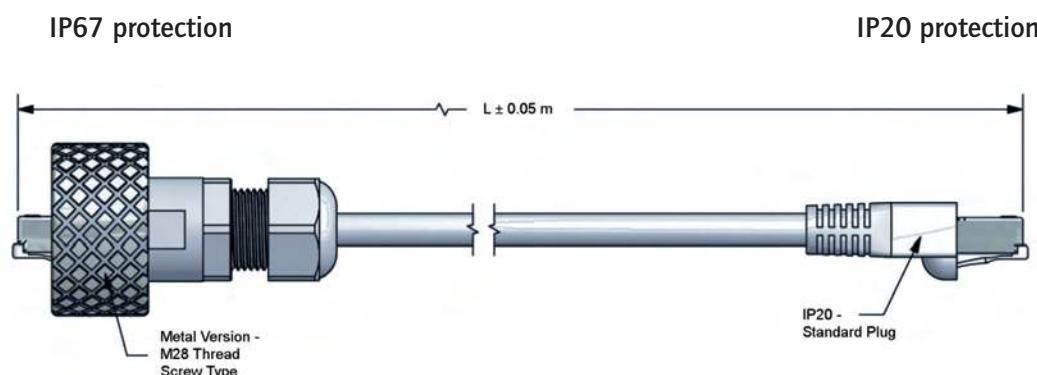

IP67 to IP20 – Metal design – M28 plug connector screw termination

### DESCRIPTION

- Field attachable patch cord
- 1 x Metal Industrial RJ45-IP67 – 1 x Standard RJ45-IP20
- Designs:
  - Metal plug coupling ring, M28 thread;  
Housing metallized plastic; Cable UTP\* black
  - Metal plug coupling ring, M28 thread;  
Housing metallized plastic; Cable STP\*\* black
- Outdoor version with cable "Drain wire" and "Waterproof tape"
- Special lengths on request

### Tools

Tools	Part Number
Crimp tool for RJ45 plug connector	360X30029 X
Insertion tool for RJ45 insulation displacement termination version (IDC)	360X30049 X
Cable tester	360X30039 X

## SECTION 6

# USB 2.0-IP67 WATER RESISTANT CONNECTOR SYSTEM

---

CONEC completed its product line of bayonet locking series, IP67 rated industrial USB 2.0 connector system for harsh environments.

The housing can be mounted on the front or rear side of enclosure panels with thickness up to 3.2 mm. The USB Connector are designed to meet USB 2.0 specification.

This interface meets IP67 rating requirements when a mating connector is inserted or when covered with a secured protective cap.

USB 2.0 plug set is available for the cable side and there are also preassembled patch cords available in various IP protection designs and lengths.

The program is rounded out by a metal version for heavy duty applications.

In this case the installation sockets, plug sets and protective caps have a metal jacket with M28 thread design. Applications for this version include machine tool, automation, automotive, mass transportation and extreme harsh environmental applications.

### Typical applications:

- Industrial production, CNC machines
- Communications equipment
- Food & Beverage and chemical controllers process
- Outdoor wireless
- Bluetooth adapters
- Industrial process control
- Diagnostic and test instruments
- Outdoor displays
- Factory automation
- Outdoor telecommunications systems
- Oil and gas industries
- Mass transportation
- Outdoor monitoring devices
- Outdoor metering
- UPServation platform

## TECHNICAL DATA

<b>Mechanical and electrical characteristics</b>	
Interface connector	USB Connector per USB 2.0 specification
Locking mechanism	Bayonet socket connector per IEC 61076-3-106 or screw termination M28 thread
IP Degree of protection	IP67
Temperature range	Connector: -40°C to + 85°C / Patch cable: -40°C to +80°C
Current rating	1.5 A max. at 25°C
Voltage	100 VDC
Contact resistance	30 mΩ max.
Insulation resistance	500 mΩ
Electric strength contact to contact	500 VAC / 60 sec.
Electric strength contact to metal shell	1000 VAC / 60 sec.
<b>Materials</b>	
Housing	PBT (black), flame protection per UL 94-V0 or brass nickel plated
Fastening nut	Brass nickel plated
Shell sealing	Silicone (white)
USB Socket metal shell	SPCC nickel plated
USB Socket and plug connector plastic shell	PBT (white), flame protection per UL 94-V0
USB Socket and plug contacts	Phosphor bronze, gold plated
Connector housing	PBT (black), flame protection per UL 94-V0
Metal socket coupling ring	PBT (black), flame protection per UL 94-V0 or brass nickel plated
Cable termination	PA (black), flame protection per UL 94-V0 or brass nickel plated
Cable seal	NBR (black)
Interface seal	Silicone (white)
USB plug connector metal shell	Copper alloy, nickel plated
Protection cap	PBT (black), flame protection per UL 94-V0 or brass nickel plated
Seal	Silicone (red)
Protection cap	PE (black) or copper alloy nickel plated

Technical alterations are subject to change without notice.

# USB 2.0 INSTALLATION HOUSING-SET

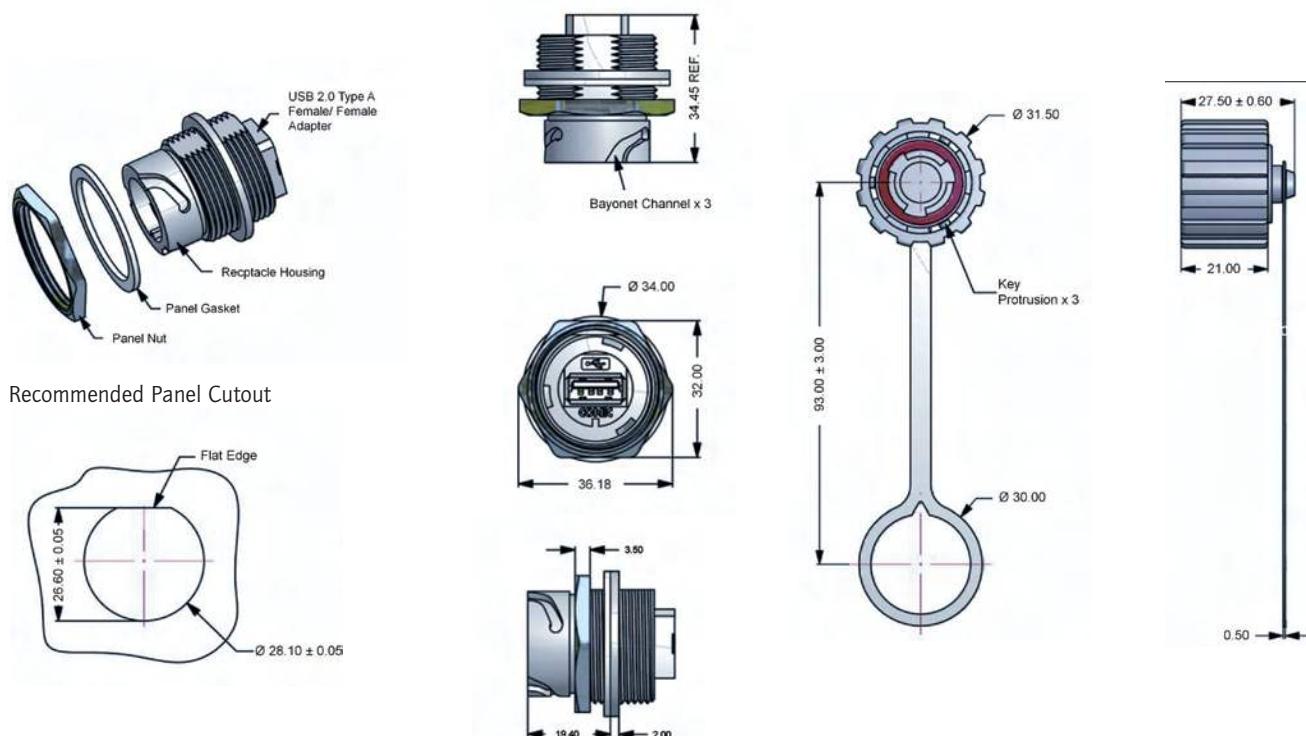

Socket connector version – Plastic design – Bayonet locking type

## DESCRIPTION

- For front- and rear panel mounting up to wall thickness of .013"/3.2 mm
- Design: Black plastic
- Termination with USB 2.0 type A coupler, IP20 rated
- Bayonet locking per IEC 61076-3-106
- Available as housing with or without protection cap

## PRODUCT DRAWING

## ORDER DATA

Type	Material	Termination	Protection cap	Part Number
Installation housing	Black plastic	Bayonet locking	Without protection cap	17-200001
Installation housing	Black plastic	Bayonet locking	With protection cap	17-200161

# USB 2.0 CONNECTOR SET

Standard version – Bayonet locking type

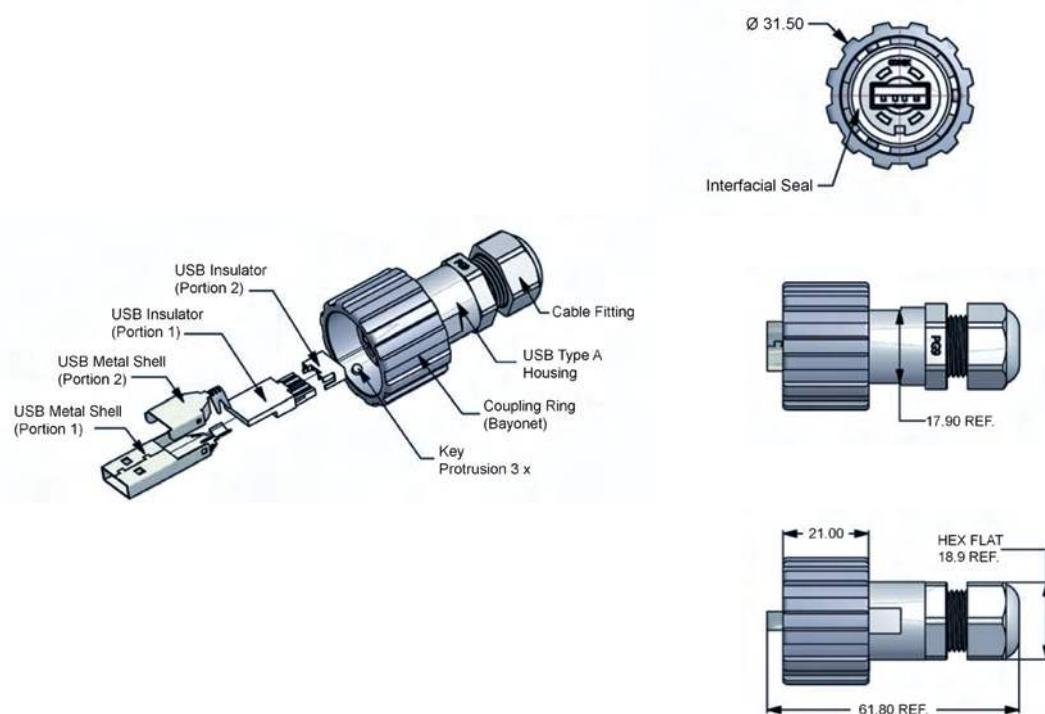

RoHS compliant

## DESCRIPTION

- Design: Black plastic
- USB Connector per USB 2.0 specification Type A
- Bayonet locking per IEC 61076-3-106

## PRODUCT DRAWING

## ORDER DATA

Type	Material	Termination	Part Number
Connector set	Black plastic	Bayonet locking	17-200121

## USB 2.0 INSTALLATION HOUSING SET

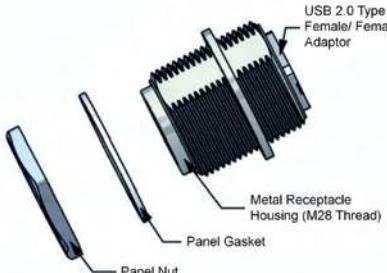

Socket connector version – Metal design – M28 threaded termination

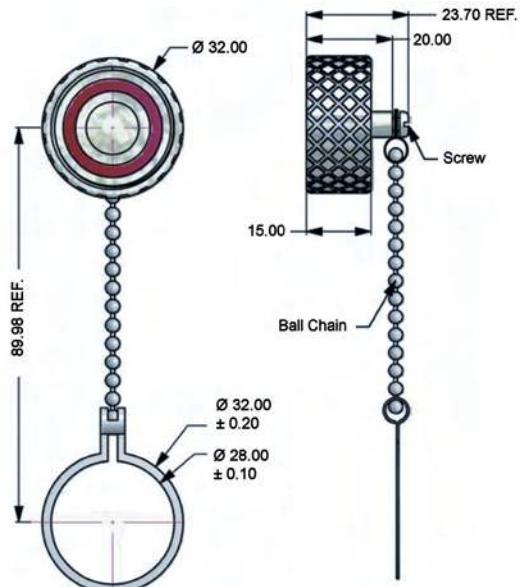

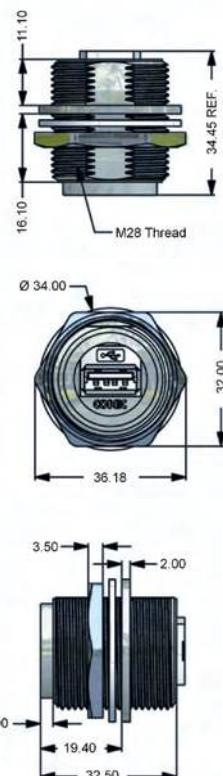

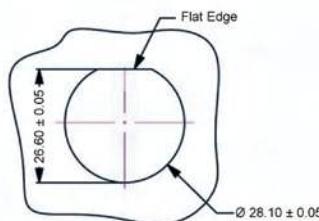

### DESCRIPTION

- For front- and rear panel mounting
- Design: Metal shell brass nickel plated
- Termination with USB 2.0 type A coupler, IP20 rated
- IP67 protection over M28 thread termination
- Available as housing with or without protection cap

### PRODUCT DRAWING

Recommended Panel Cutout

### ORDER DATA

Type	Material	Termination	Protection cap	Part Number
Installation housing	Brass nickel plated	M28 Thread	Without protection cap	17-200321
Installation housing	Brass nickel plated	M28 Thread	With protection cap	17-200431

# USB 2.0 CONNECTOR SET

Standard version – M28 threaded termination

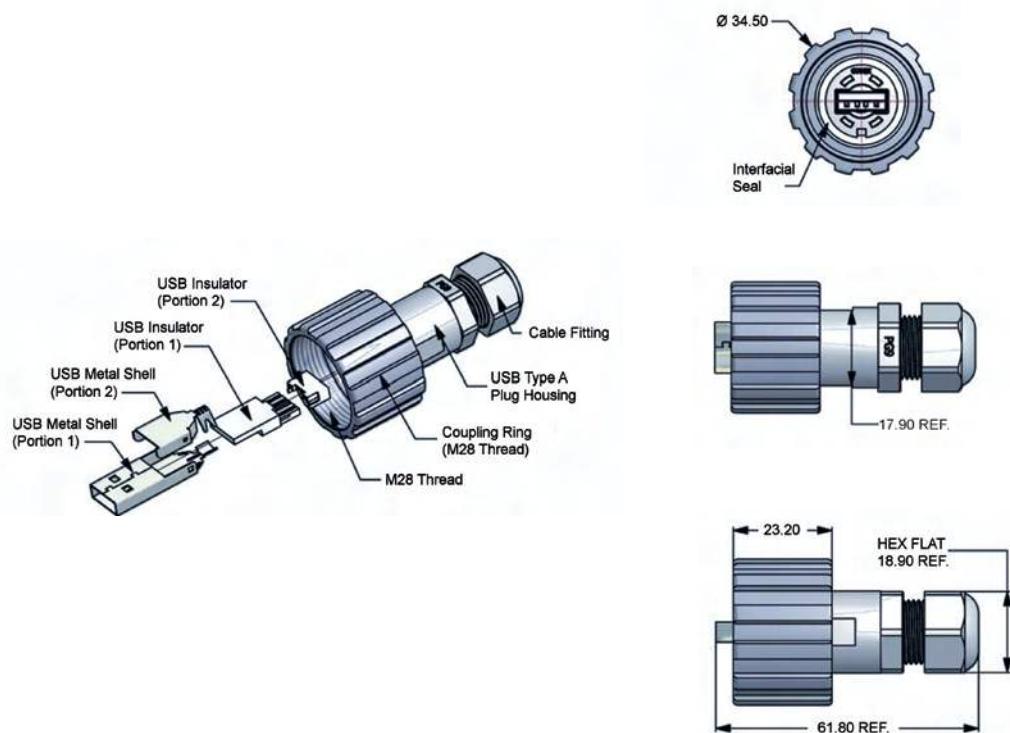

RoHS compliant

## DESCRIPTION

- Design: Black plastic
- USB Connector per USB 2.0 specification Type A
- M28 thread

## PRODUCT DRAWING

## ORDER DATA

Type	Material	Termination	Part Number
Connector set	Black plastic	M28 Thread	17-200151

# USB 2.0 CONNECTOR SET

Metal version – M28 threaded termination

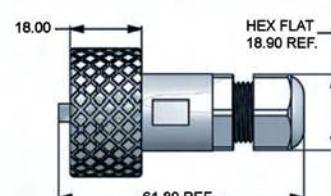

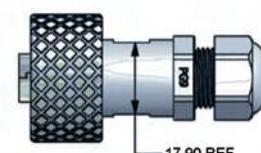

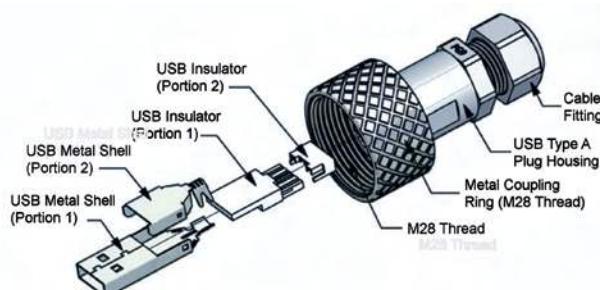

RoHS compliant

## DESCRIPTION

- Design: Metal, brass nickel plated
- USB Connector per USB 2.0 specification Type A
- M28 thread

## PRODUCT DRAWING

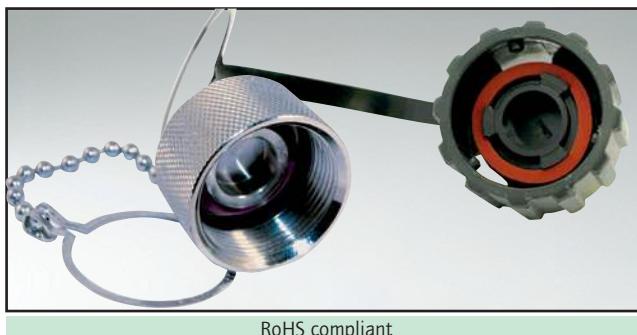

## ORDER DATA

Type	Material	Termination	Part Number
Connector set	Brass nickel plated	M28 Screw termination	17-200331

# USB 2.0 PROTECTION CAPS FOR INSTALLATION SHELL

Plastic- and metal design

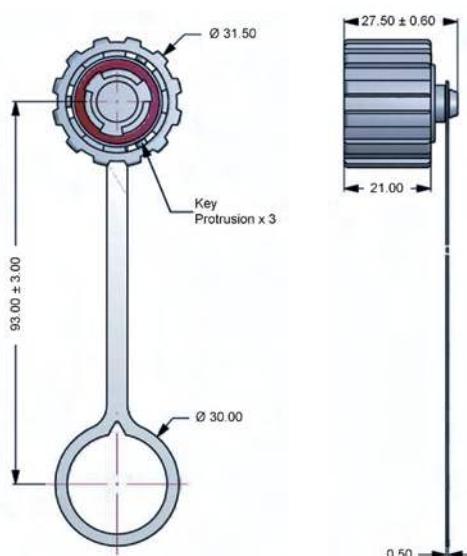

RoHS compliant

## DESCRIPTION

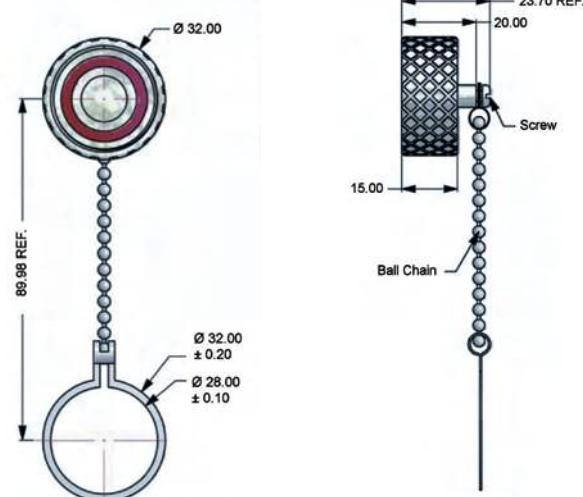

- Optimal IP67 protection of the interface in unmated condition
- Metal design with M28 thread
- Plastic design with bayonet locking

## PRODUCT DRAWING

Plastic design / Bayonet locking

Metal design / M28 thread

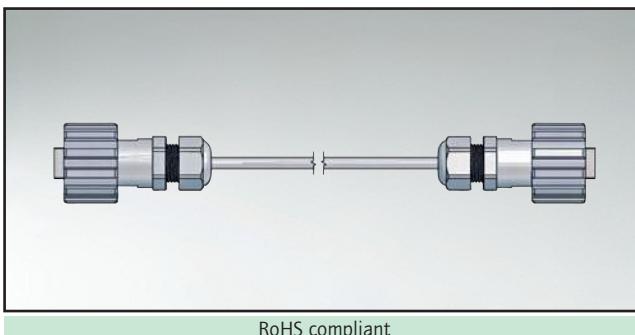

## ORDER DATA

Type	Material	Termination	Part Number
Protection cap	Plastic/Black	Bayonet locking	17-10002
Protection cap	Metal/Brass nickel plated	M28 Thread	17-100950

## USB 2.0 PATCH CORD

IP67 to IP67, IP67 to IP20 – Type A – in plastic or metal design

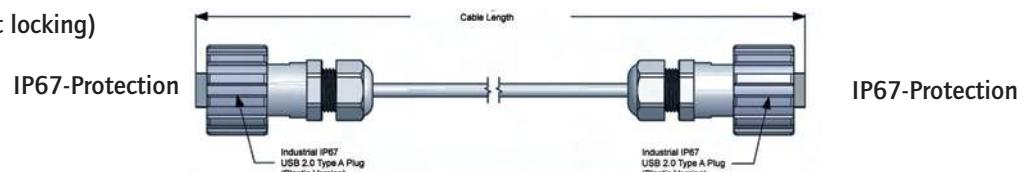

RoHS compliant

### DESCRIPTION

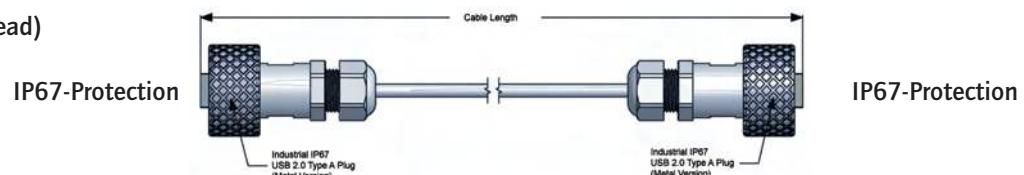

- Field attachable patch cord
- IP67 protected on both cable endings
- IP67 protected at one end
- IP20 rated type A on the other end
- Plastic design with bayonet locking
- Metal design with M28 thread
- Special lengths on request

### PRODUCT DRAWING

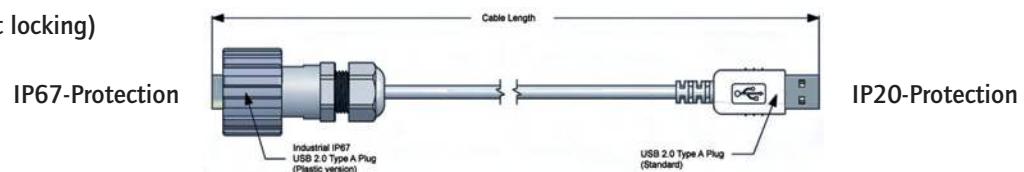

#### Type 1: Plastic design (Bayonet locking)

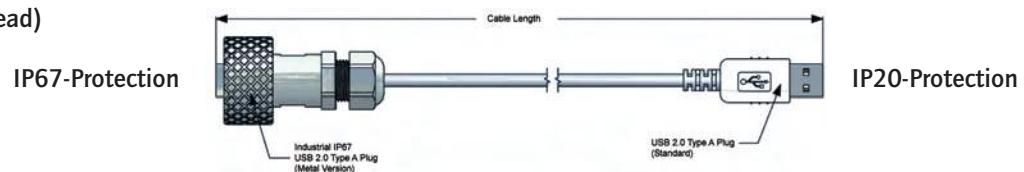

#### Type 2: Metal design (M28 thread)

#### Type 3: Plastic design (Bayonet locking)

# USB 2.0 PATCH CORD

IP67 to IP20, IP20 to IP20 – TypeA/Type B – in plastic or metal design

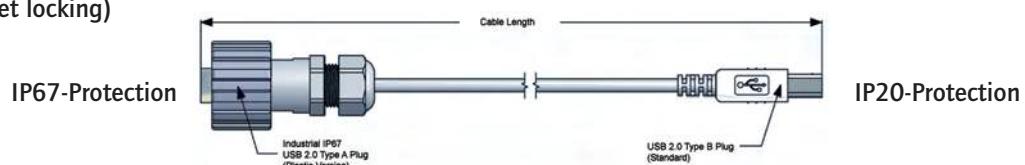

RoHS compliant

## DESCRIPTION

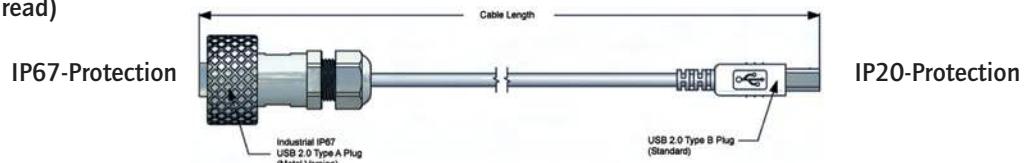

- Field attachable patch cord
- IP67 protected at one end and IP20 rated on the other end
- Plastic design with bayonet locking
- Metal design with M28 thread
- Double-sided plug connector in IP20 design
- USB 2.0 connector type A to type A or type A to type B
- Special lengths on request

## SECTION 7

# IP67 FIBER OPTIC OUTDOOR

---

CONEC has developed a ruggedized Fiber Optic connector in IP67 on SC-Connector basis. The outer housing is a standard D-Sub metal housing and fits into customary panels. In combination with special outdoor cable this connector is favoured for outdoor applications. The compact style allows high density packaging.

Conec has expanded the IP67 Water Resistant Connector Product Line. Conec now offers a Duplex LC Fiber Optic Connector, this connector is installed into a protective shell (housing) in accordance to IEC61076-3-106 Type 1.

The connector features Bayonet locking. Included with this connector system is the Duplex LC Plug and Receptacle both are ODVA compliant. This series of products are suitable for outdoor and indoor Harsh Environments and in applications such as Telecom, Industrial Ethernet, Instrumentation, Security Systems. Complete Assemblies with Fiber cable installed are offered.

For more information please contact the factory.

# IP67 FIBER OPTIC SC DUPLEX SYSTEM

Metal housing with connector

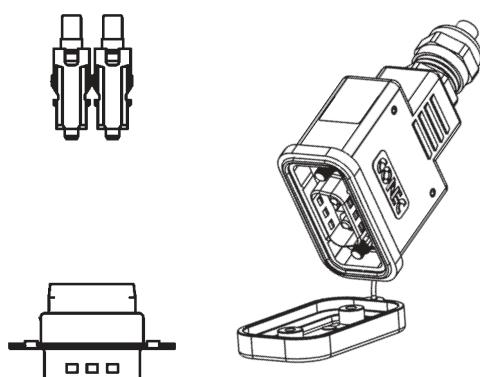

RoHS compliant

## DESCRIPTION

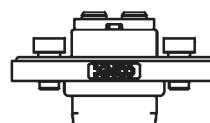

- Temperature range -40 °C to +80°C
- Mating cycles: 100
- Ferrule: Ceramic
- Duplex connector
- Based on SC-plugs
- Multimode and Singlemode
- D-Sub metal housing
- D-Sub panel adapter
- Protection cap made of metal IP65

## PRODUCT DRAWING

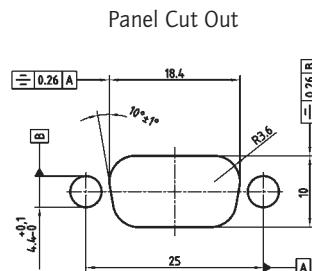

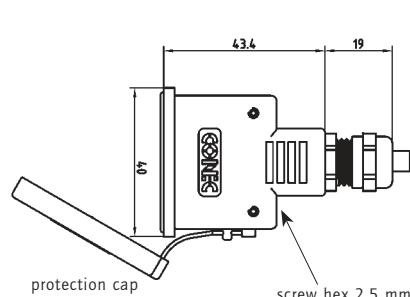

Type A: Hood System with Connector

Type B: Panel Adapter

Type C: Panel Connector (2x)

## ORDER DATA

### PRODUCT DRAWING

Recommended Panel Cutout

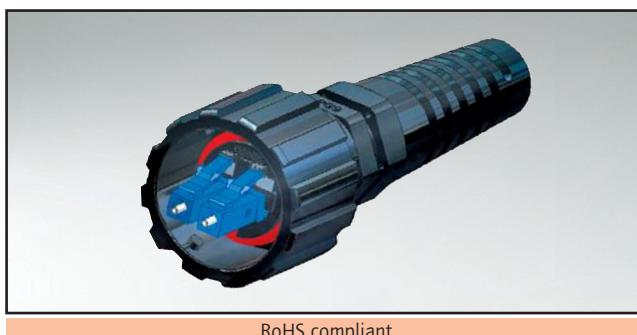

### ORDER DATA

Type	Material	SM / MM	Part Number
Receptacle assembly kit	Black plastic	Single Mode	17-300010
Receptacle assembly kit	Black plastic	Multi Mode	17-300020

# IP67 FIBER OPTIC INDUSTRIAL DUPLEX LC CONNECTOR

Plug Kit – Bayonet locking type

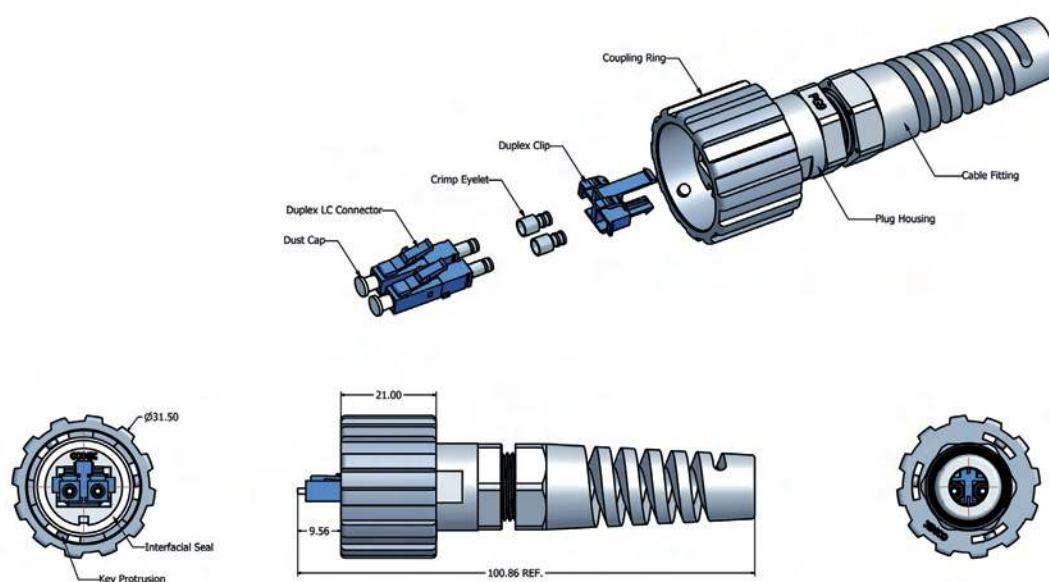

RoHS compliant

## DESCRIPTION

- Plug kit with bayonet coupling ring
- Material: polyester (black), UL94 V-0
- Duplex LC connector with dust caps
- Operating temperature: -40°C to +85°C
- Attachable cables are available on request

## PRODUCT DRAWING

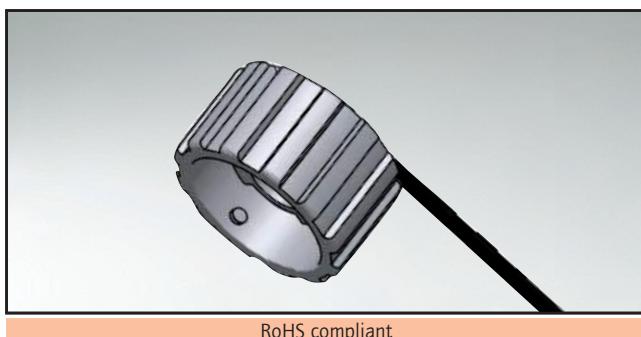

## ORDER DATA

Type	Material	SM/ MM	Part Number
Plug kit	Black plastic	Single Mode	17-300030
Plug kit	Black plastic	Multi Mode	17-300040

# IP67 FIBER OPTIC ACCESSORIES

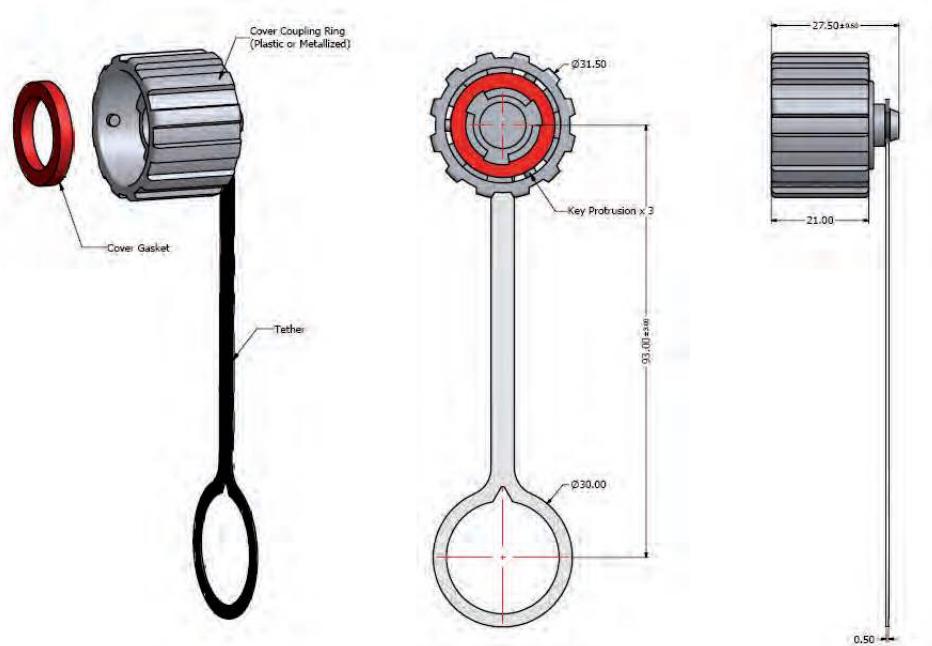

## Protection cap for receptacle

### DESCRIPTION

- IP67 protection for unmated connectors
- Material protection cap: polyester (black); UL 94 V-0
- Material tether: polycarbonate (black)
- Operating temperature: -40°C to +85°C

### PRODUCT DRAWING

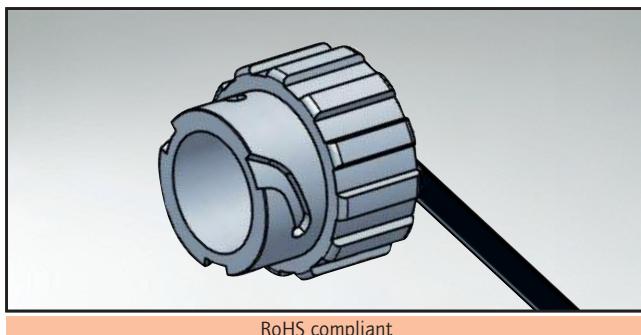

### ORDER DATA

Type	Material	Part Number
Protection cap receptacle	Black plastic	17-10002

# IP67 FIBER OPTIC ACCESSORIES

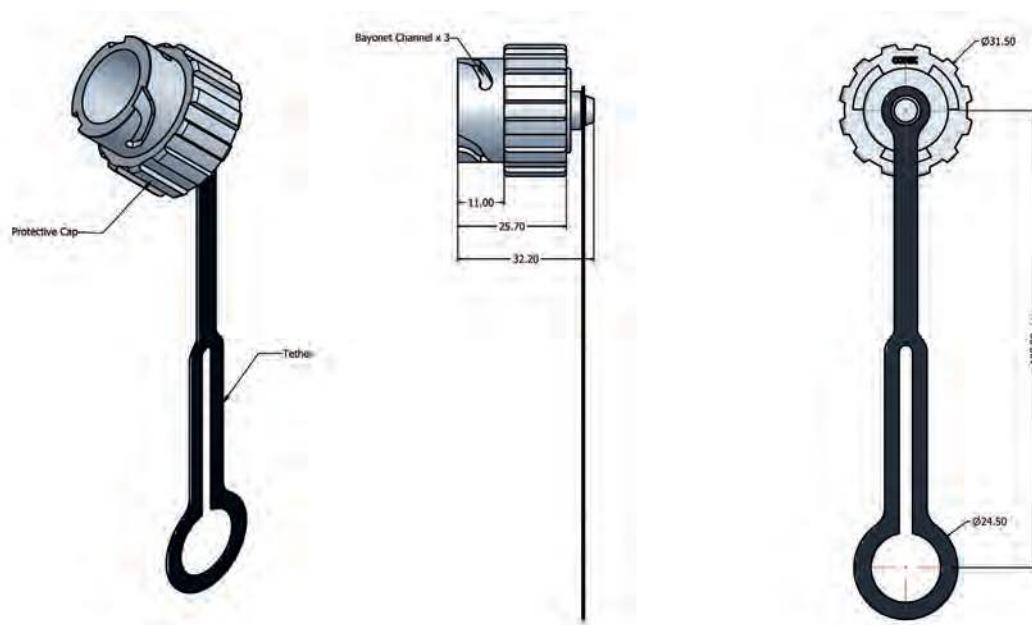

## Protection cap for plug

### DESCRIPTION

- IP67 protection for unmated plug assemblies
- Material protection cap: polyester (black); UL 94 V-0
- Material tether: polycarbonate (black)
- Operating temperature: -40°C to +85°C
