## 1.0 SCOPE

This Product Specification covers performance requirements for the MINI-FIT TPA 4.20 mm (.165 inch) centerline (pitch) printed circuit board (PCB) connector series with Tin or Gold plating in Wire-To-Wire, Wire-to-Board and terminated with 16 to 28 AWG wire using Crimp technology.

Other products conforming to this specification are noted on the individual drawings.

### 2.2 DIMENSIONS, MATERIALS, PLATINGS AND MARKINGS

See the appropriate sales drawings for the information on dimensions, materials, platings and markings.

### 2.3 SAFETY AGENCY APPROVALS

UL File: E29179 CSA Certificate: LR19980 TUV Certificate: R72081037

### 3.0 APPLICABLE DOCUMENTS AND SPECIFICATIONS

See sales drawings and the other sections of this specification for the necessary referenced documents and specifications.

## <u>Note</u>: PCB trace design may greatly affect temperature rise results.

\*\* Ratings shown represent *MAXIMUM* current carrying capacity of a fully loaded connector with all circuits powered. Ratings are based on a 30°C maximum temperature rise limit over ambient (room temperature). Above charts are intended as a guideline. Current rating is application dependent. Appropriate de-rating is required depending on factors such as higher ambient temperature, smaller copper weight of PCB traces, gross heating from adjacent modules or components and other factors that influence connector performance.

#### 4.4 TEMPERATURE

Operating: \* - 40°C to + 105°C Nonoperating: - 40°C to + 105°C \*Including 30°C terminal temperature rise at rated current

### 4.5 WAVE SOLDER PROCESS TEMPERATURE

Headers with pegs: 240°C MAX. Headers without pegs: 260°C MAX.

| 6    | Mixed Flowing Gas                                 | EIA-364-65 with Class IIa Gas concentrations (Gold plated only)                                                              | 20 milliohms MAXIMUM<br>(change from initial)<br>Visual: No Damage                                                                        |

### 7.0 TEST SEQUENCES

Testing sequences to be performed in accordance with EIA-364-1000.01

#### 8.0 PACKAGING

Parts shall be packaged to protect against damage during normal handling, transit and storage.
