

### Design-In SATA SSDs

## Perfect storage solutions for system designers and builders

Kingston® offers a line of Design-In SATA solid-state drives created specifically for system designers and builders. The Design-In SATA line of SSDs includes, 2.5-inch, mSATA, M.2 2242 and M.2 2280 form factors. Design-In SSDs incorporate advanced SATA 3, 6Gbps controllers that automatically perform wear-leveling, garbage collection and other vital NAND Flash management features. They are a drop-in replacement for hard drives and deliver up to 20x greater performance as well as high reliability. Design-In SSDs incorporate high speed next-generation 3D NAND Flash.

#### **KEY BENEFITS**

System designers and builders rely on consistent storage products. Kingston offers the following benefits with the Design-In SSD product line:

- Controlled BOM and Firmware Ensures there are no changes to key components after customer qualification.
- PCN Support All generational changes and firmware updates are handled through a controlled and timed process.
- Engineering Support Customers have a direct contact to their regional Kingston Field Application Engineering teams for fast response to storage requirement questions and support requests.
- Global Support Kingston can coordinate SSD deliveries with a customer's Original Design Manufacturers (ODMs) or Contract Manufacturers (CMs) in other regions of the world, if required
- Warranty\* For peace of mind, our Design-in SSDs are backed by a limited three-year warranty and free technical support.

#### **MARKET SEGMENTS**

Point of Sale (POS)

Digital Signage
