

SIRRUS LED Task Light w/ High Intensity Fixed Focus, 500mm Flex Arm and Clamp

Dramatically Reduces Power Consumption and Improves Lighting Quality

Our new Sirrus LED Task Light is designed to provide high efficiency & powerful lighting. It features low power consumption with extra long service life. The Sirrus LED Task Light integrates many outstanding features making it popular for many locations such as machines, assembly stations, office & inspection locations and precision working. The soft, even area illumination is ideal for close-up applications that require more than a focused beam. Output ranges from 4100 lux at 1 foot distance to 1070 lux at 2 feet. The protective switch cover prevents permeation by dust, water, lubricants, coolants, and other liquids. Includes metal clamp excellent for workbench mounting.
