

Measures conductivity and total dissolved solids

- Reads Conductivity, TDS and Temperature (°C/°F)
- Automatic temperature compensation (ATC)
- Pure titanium probe, rust and corrosion resistant
- Exposed stainless steel temperature sensor for wider temperature range, faster response and accuracy
- Water resistant keypad with easy single button operation

This multi-functional pen type water quality meter measures conductivity and total dissolved solids (TDS) to determine water quality. The unit has auto range recognition, ATC and automatic shut off if idle for 2 minutes. This compact unit weighs just 27 grams, is 6" in length and easily fits into a shirt/lab coat pocket.

DIM: 6" x 1" x 0.63" (152.4 x 25.4 x 16 mm). WEIGHT: .93 oz (26.5 g).

No.	Description
-----	-------------

850068	Multi-Functional Water Quality Pen
--------	------------------------------------

TDS Range	0-9999 ppm	Battery	1.5V x 2 AG13 Button Cell
Conductivity Range	0-9999 µS/cm	Operating Current	< 1mA
Temperature Range	0-80°C (32-176°F)	Product Weight	26.5 grams
Resolution	1 ppm, 1µS/cm	Product Size	6" x 1" x 0.63"
Accuracy	+/-2% FS
