Introduction

Advantech's IMC-595MPI three-in-one mega PoE media converter is a compact, industrial grade solution that can serve as a fiber-to-Ethernet media converter, a 90W*2 PoE injector and a light management Ethernet switch.

It supports Link Fault Pass Through(LFPT) and Force-Power functionality. It also allows flexible topology by switching from injector mode to switch mode. Therefore it is best fit used in harsh environment which needs slight network deployment changes.
