## COEM Series microSD & SD

### PRODUCT HIGHLIGHTS

OEM grade SD & microSD, Compliant with SD 6.0

Read / Write speeds up to 95 MB/s / 75 MB/s

Designed for challenging environmental conditions

Delkin Devices COEM Series of microSD and SD cards is a cost-optimized product family ideal for OEM applications needing economical, yet durable and reliable NAND flash storage.

Utilizing proven design and manufacturing practices that produce high quality cards, the COEM Series is a more suitable option for equipment suppliers than retail consumer grade cards, but at a similar price point.

Whether logging data or video, or loading an OS or application software, the COEM series utilizes the latest controller technology and 3D NAND to offer excellent performance at a great value.
