

To our customers,

Old Company Name in Catalogs and Other Documents

On April 1st, 2010, NEC Electronics Corporation merged with Renesas Technology Corporation, and Renesas Electronics Corporation took over all the business of both companies. Therefore, although the old company name remains in this document, it is a valid Renesas Electronics document. We appreciate your understanding.

Renesas Electronics website: <http://www.renesas.com>

April 1st, 2010
Renesas Electronics Corporation

Issued by: Renesas Electronics Corporation (<http://www.renesas.com>)

Send any inquiries to <http://www.renesas.com/inquiry>.

Notice

1. All information included in this document is current as of the date this document is issued. Such information, however, is subject to change without any prior notice. Before purchasing or using any Renesas Electronics products listed herein, please confirm the latest product information with a Renesas Electronics sales office. Also, please pay regular and careful attention to additional and different information to be disclosed by Renesas Electronics such as that disclosed through our website.
2. Renesas Electronics does not assume any liability for infringement of patents, copyrights, or other intellectual property rights of third parties by or arising from the use of Renesas Electronics products or technical information described in this document. No license, express, implied or otherwise, is granted hereby under any patents, copyrights or other intellectual property rights of Renesas Electronics or others.
3. You should not alter, modify, copy, or otherwise misappropriate any Renesas Electronics product, whether in whole or in part.
4. Descriptions of circuits, software and other related information in this document are provided only to illustrate the operation of semiconductor products and application examples. You are fully responsible for the incorporation of these circuits, software, and information in the design of your equipment. Renesas Electronics assumes no responsibility for any losses incurred by you or third parties arising from the use of these circuits, software, or information.
5. When exporting the products or technology described in this document, you should comply with the applicable export control laws and regulations and follow the procedures required by such laws and regulations. You should not use Renesas Electronics products or the technology described in this document for any purpose relating to military applications or use by the military, including but not limited to the development of weapons of mass destruction. Renesas Electronics products and technology may not be used for or incorporated into any products or systems whose manufacture, use, or sale is prohibited under any applicable domestic or foreign laws or regulations.
6. Renesas Electronics has used reasonable care in preparing the information included in this document, but Renesas Electronics does not warrant that such information is error free. Renesas Electronics assumes no liability whatsoever for any damages incurred by you resulting from errors in or omissions from the information included herein.
7. Renesas Electronics products are classified according to the following three quality grades: “Standard”, “High Quality”, and “Specific”. The recommended applications for each Renesas Electronics product depends on the product’s quality grade, as indicated below. You must check the quality grade of each Renesas Electronics product before using it in a particular application. You may not use any Renesas Electronics product for any application categorized as “Specific” without the prior written consent of Renesas Electronics. Further, you may not use any Renesas Electronics product for any application for which it is not intended without the prior written consent of Renesas Electronics. Renesas Electronics shall not be in any way liable for any damages or losses incurred by you or third parties arising from the use of any Renesas Electronics product for an application categorized as “Specific” or for which the product is not intended where you have failed to obtain the prior written consent of Renesas Electronics. The quality grade of each Renesas Electronics product is “Standard” unless otherwise expressly specified in a Renesas Electronics data sheets or data books, etc.
 - “Standard”: Computers; office equipment; communications equipment; test and measurement equipment; audio and visual equipment; home electronic appliances; machine tools; personal electronic equipment; and industrial robots.
 - “High Quality”: Transportation equipment (automobiles, trains, ships, etc.); traffic control systems; anti-disaster systems; anti-crime systems; safety equipment; and medical equipment not specifically designed for life support.
 - “Specific”: Aircraft; aerospace equipment; submersible repeaters; nuclear reactor control systems; medical equipment or systems for life support (e.g. artificial life support devices or systems), surgical implantations, or healthcare intervention (e.g. excision, etc.), and any other applications or purposes that pose a direct threat to human life.
8. You should use the Renesas Electronics products described in this document within the range specified by Renesas Electronics, especially with respect to the maximum rating, operating supply voltage range, movement power voltage range, heat radiation characteristics, installation and other product characteristics. Renesas Electronics shall have no liability for malfunctions or damages arising out of the use of Renesas Electronics products beyond such specified ranges.
9. Although Renesas Electronics endeavors to improve the quality and reliability of its products, semiconductor products have specific characteristics such as the occurrence of failure at a certain rate and malfunctions under certain use conditions. Further, Renesas Electronics products are not subject to radiation resistance design. Please be sure to implement safety measures to guard them against the possibility of physical injury, and injury or damage caused by fire in the event of the failure of a Renesas Electronics product, such as safety design for hardware and software including but not limited to redundancy, fire control and malfunction prevention, appropriate treatment for aging degradation or any other appropriate measures. Because the evaluation of microcomputer software alone is very difficult, please evaluate the safety of the final products or system manufactured by you.
10. Please contact a Renesas Electronics sales office for details as to environmental matters such as the environmental compatibility of each Renesas Electronics product. Please use Renesas Electronics products in compliance with all applicable laws and regulations that regulate the inclusion or use of controlled substances, including without limitation, the EU RoHS Directive. Renesas Electronics assumes no liability for damages or losses occurring as a result of your noncompliance with applicable laws and regulations.
11. This document may not be reproduced or duplicated, in any form, in whole or in part, without prior written consent of Renesas Electronics.
12. Please contact a Renesas Electronics sales office if you have any questions regarding the information contained in this document or Renesas Electronics products, or if you have any other inquiries.

(Note 1) “Renesas Electronics” as used in this document means Renesas Electronics Corporation and also includes its majority-owned subsidiaries.

(Note 2) “Renesas Electronics product(s)” means any product developed or manufactured by or for Renesas Electronics.

M52461GP

SERVO MOTER MOTROL FOR RADIO CONTROL

REJ03F0006-0100Z

Rev.1.00

Jul.25.2003

Description

The M52461GP is a semiconductor integrated circuit for servo control applications.

Features

- Excellent power supply stability and temperature stability
- Simple setting of dead of band range
- Small outline (16pin SSOP)

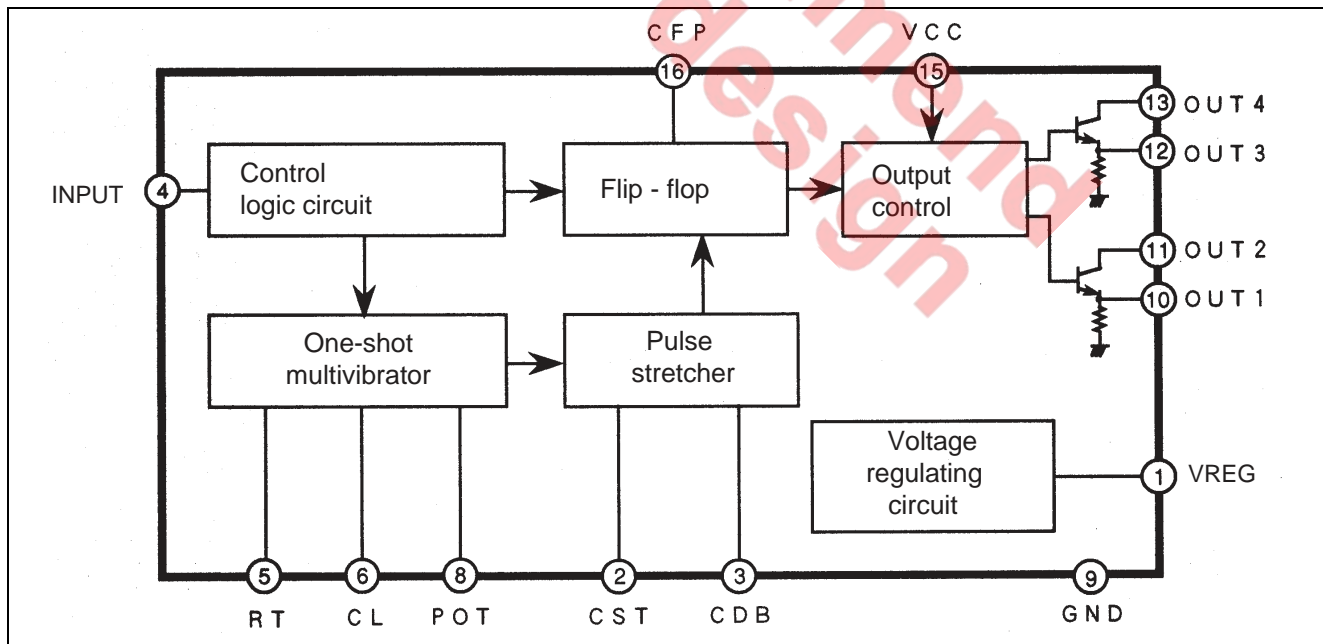

Applications

- Digital proportional systems for radio control, servo motor control ,etc

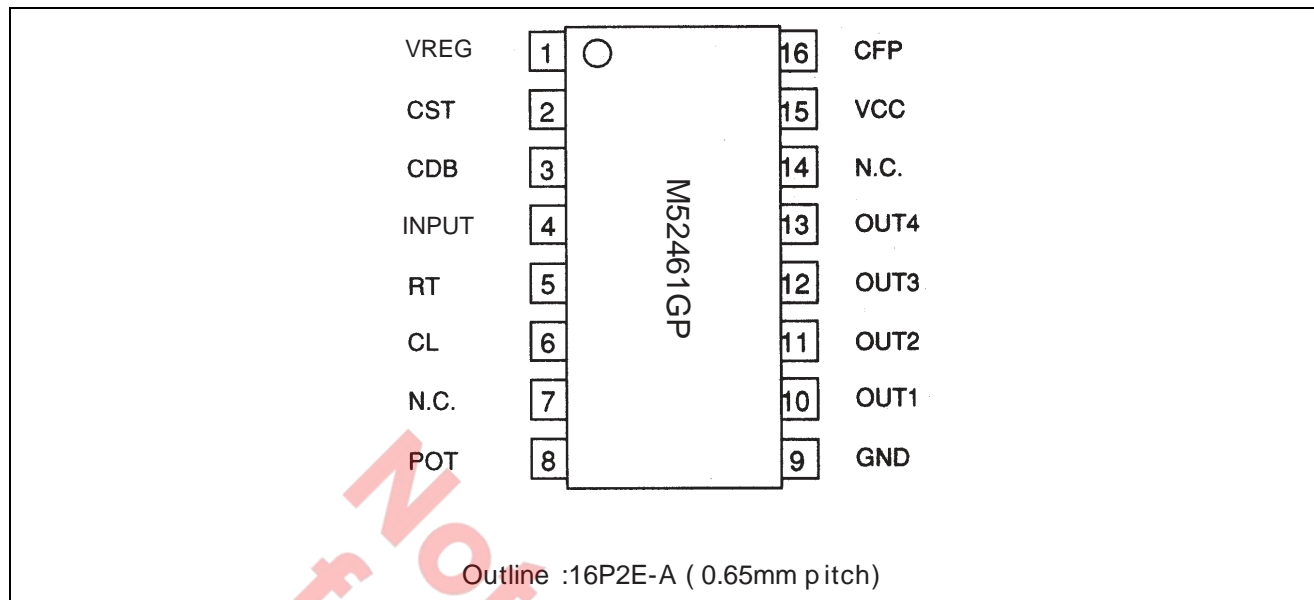

Recommended Operating Conditions

- Supply Voltage range : 2.8 to 7.5 V
- Operating temperature : -20 to 75°C
- Input rise time : 500 nS max.
- Input fall time : 500 nS max.

Block Diagram

Pin Arrangement

Pin Description

Pin No.	Symbol	Function	Descriptions
1	VREG	Regulated voltage source	This is output of the internal regulated supply voltage. Make connections from this pin to pot-entiometer and pulse stretcher resistor.
2	CST	Stretcher pin	Connect the capacitor and resistor of the pulse stretcher section.
3	CDB	Dead band setting pin	Connect the capacitor and band can be changed according the value of this capacitor.
4	INPUT	Input pin	
5	RT	Constant setting pin	Connect a capacitor that will determine the constant current value of pin 6. Constant current will became 100 μ A at the time of the resistance of 18 k Ω
6	CL	Local pulse setting pin	Connect a capacitor that will adjust a triangular wave made by charging of constant current.
7	N.C.	No connection	
8	POT	Servo position voltage input pin	Connect to the potentiometer for the position detection connected with the output axis.
9	GND	Grounding pin	Grounding
10	OUT1	Output 1	Connect to the base of the external NPN transistor
11	OUT2	Output 2	Connect to the base of the external PNP transistor
12	OUT3	Output 3	Connect to the base of the external NPN transistor
13	OUT4	Output 4	Connect to the base of the external PNP transistor
14	N.C.	No connection	
15	VCC	Supply voltage	Connect a capacitor of more than 10 μ F.
16	CFP	Fixed driving pulse setting pin	Connect a capacitor that will determine the fixed driving pulse width.

Absolute Maximum Ratings

(VCC = 5V, Ta = 25°C, unless otherwise noted)

Symbol	Parameter	Test conditions	Ratings	Unit
VCC	Supply voltage		9.0	V
IO	Output current	OUT1 to OUT4	40	mA
PD	Power dissipation		300	mW
K θ	Thermal derating range	Ta \geq 25°C	-3.0	mW/°C
Tstg	Storage temperature		-40 to 125	°C

Electrical Characteristics

(VCC = 5.0 V, Ta = 25°C)

Symbol	Parameter	Test conditions	Limits			Unit
			Min	Typ	Max	
VCC	Supply voltage		2.8	5.0	7.5	V
ICC1	Circuit Current 1	Output off	—	5.0	10.0	mA
ICC2	Circuit Current 2	Output on	—	6.0	11.0	mA
Vreg	Regulated voltage	No load	2.35	2.5	2.65	V
dVreg	Regulated voltage precision	VCC = 3.5 to 6.5 V	—	0.2	—	%/V
Iref	Reference current	RT = 18 kΩ, Pin 5 current value	90	100	110	μA
Vih	High input voltage	Pin4	2.0	—	Vcc	V
WL	Standard local pulse width	RT = 18 kΩ, CL = 0.1 μF	1.4	1.5	1.6	ms
dWL	Supply voltage dependence of the local pulse width	VCC = 3.5 to 6.5 V	—	—	2.0	μs/V
		VCC = 2.5 to 7.5 V	—	—	15.0	
Wdb1	Minimum dead bandwidth	CFP = 0.01μF Not connect CDB	—	—	1.0	μs
Wdb2	Standard driving band width	Not connect CFP and CDB	—	2.5	6.0	μs
AST	Stretcher gain	RT = 18 kΩ RST = 120 kΩ CST = 0.1 μF	—	100	—	times
WKP	Fixed driving pulse width	CFP = 0.01μF Not connect CDB	0.7	1.0	1.3	ms
WCP	Standard driving pulse width	Not connect CFP and CDB	0.3	0.5	0.8	ms
Wout	Output pulse width	CST = 0.1 μF RST = 120 kΩ Pulse width 100μs (3pin)	8.0	10.0	12.0	ms
Vosat	Output pin saturation voltage	ISINK = 20 mA	—	0.2	0.4	V

Renesas Technology Corp. Sales Strategic Planning Div. Nippon Bldg., 2-6-2, Ohte-machi, Chiyoda-ku, Tokyo 100-0004, Japan

Keep safety first in your circuit designs!

1. Renesas Technology Corp. puts the maximum effort into making semiconductor products better and more reliable, but there is always the possibility that trouble may occur with them. Trouble with semiconductors may lead to personal injury, fire or property damage.
Remember to give due consideration to safety when making your circuit designs, with appropriate measures such as (i) placement of substitutive, auxiliary circuits, (ii) use of nonflammable material or (iii) prevention against any malfunction or mishap.

Notes regarding these materials

1. These materials are intended as a reference to assist our customers in the selection of the Renesas Technology Corp. product best suited to the customer's application; they do not convey any license under any intellectual property rights, or any other rights, belonging to Renesas Technology Corp. or a third party.
 2. Renesas Technology Corp. assumes no responsibility for any damage, or infringement of any third-party's rights, originating in the use of any product data, diagrams, charts, programs, algorithms, or circuit application examples contained in these materials.
 3. All information contained in these materials, including product data, diagrams, charts, programs and algorithms represents information on products at the time of publication of these materials, and are subject to change by Renesas Technology Corp. without notice due to product improvements or other reasons. It is therefore recommended that customers contact Renesas Technology Corp. or an authorized Renesas Technology Corp. product distributor for the latest product information before purchasing a product listed herein.
The information described here may contain technical inaccuracies or typographical errors.
Renesas Technology Corp. assumes no responsibility for any damage, liability, or other loss rising from these inaccuracies or errors.
Please also pay attention to information published by Renesas Technology Corp. by various means, including the Renesas Technology Corp. Semiconductor home page (<http://www.renesas.com>).
 4. When using any or all of the information contained in these materials, including product data, diagrams, charts, programs, and algorithms, please be sure to evaluate all information as a total system before making a final decision on the applicability of the information and products. Renesas Technology Corp. assumes no responsibility for any damage, liability or other loss resulting from the information contained herein.
 5. Renesas Technology Corp. semiconductors are not designed or manufactured for use in a device or system that is used under circumstances in which human life is potentially at stake. Please contact Renesas Technology Corp. or an authorized Renesas Technology Corp. product distributor when considering the use of a product contained herein for any specific purposes, such as apparatus or systems for transportation, vehicular, medical, aerospace, nuclear, or undersea repeater use.
 6. The prior written approval of Renesas Technology Corp. is necessary to reprint or reproduce in whole or in part these materials.
 7. If these products or technologies are subject to the Japanese export control restrictions, they must be exported under a license from the Japanese government and cannot be imported into a country other than the approved destination.
Any diversion or reexport contrary to the export control laws and regulations of Japan and/or the country of destination is prohibited.
 8. Please contact Renesas Technology Corp. for further details on these materials or the products contained therein.
