## AN250202-01P-150-MHF1

Rev. 001

2.45 GHz / 5.5 GHz / 6.5 GHz PCB Antenna (ISM, IoT, RFID, Bluetooth, WLAN, Wi-Fi 6E)

## **General information**

This antenna is intended to be used within a plastic housing of a mobile device or a gateway. The antenna geometry can be optimized for customer's housing design and material properties.

## **Typical applications**

ISM, IoT, RFID, Bluetooth, WLAN, Wi-Fi 6E

| Electrical data         |                                      |
|-------------------------|--------------------------------------|
| Antenna type            | Embedded PCB antenna                 |
| Frequency range         | 2.42.5GHz / 4.95.85GHz / 5.97.125GHz |
| Nominal input impedance | 50 Ohm                               |
| Return loss             | -7 dB / -10 dB / -10 dB              |
| Maximum gain            | 1.9 dBi / 2.4 dBi / 3.1 dBi          |
| Radiation efficiency    | 61 % / 65 % / 70 %                   |
| Polarization            | linear                               |
| Radiation pattern       | omnidirectional                      |
| Maximum input power     | 10 W                                 |

| Mechanical data                    |                                      |
|------------------------------------|--------------------------------------|
| Antenna dimensions (without cable) | 45.8 mm x 17.4 mm x 0.8 mm           |
| Connector type *                   | IPEX MHF1 / U.FL (UMCC) compatible * |
| Cable type and thickness **        | microcoax 1.13 mm **                 |
| Cable length ***                   | 150 mm ***                           |
| PCB material                       | FR4                                  |
| PCB colour                         | green                                |

| Environmental data            |                |
|-------------------------------|----------------|
| Ambient operating temperature | -40°C to +85°C |
| Storage temperature           | -40°C to +85°C |
| Ambient relative humidity     | 40% to 95%     |
| RoHS compliant                | Yes            |

## Additional information

- \* Other connector or cable connection types can be offered on request.
- \*\* Following thicknesses can be used with IPEX connector: 0.81mm, 1.13mm, 1.32mm, 1.37mm.
- \*\*\* Other cable types and lengths can be provided.

Other mechanical or material changes or frequency bands are possible on request.

The antenna can be additionally equipped with adhesive tape and mounting holes.
