

3M™ SecureFit™ 500 Series

Contemporary lens design with adjustable ratcheting temples.

3M™ SecureFit™ 500 Series features a contemporary lens design coupled with adjustable ratcheting temples and Pressure Diffusion Temple (PDT) technology to help provide a more personalized fit. Utilizing a contemporary lens shape, this sporty new model also offers self-adjusting colored temples, a variety of lens tints and models with Scotchgard™ Protector Anti-fog coating.

Adjustable Ratcheting Temples
Allows user to adjust lens for facial features and eyeglass position.

3M™ Pressure Diffusion Temple Technology
features slotted ribs that provide comfortable pressure equalization. The temples flex and self-adjust to the size of wearer's head.

Polycarbonate Lenses

- U6 rated polycarbonate lenses absorb 99.9% of UVA, UVB, and UVC rays between 200 nm and 380 nm
- Meets the Impact-Rated Protector requirement of the ANSI-ISEA Z87.1-2020 Standard.

Removable Foam-Lined Gasket

Helps limit eye exposure to dust and debris while providing added comfort and cushioning.

Slim Standout Style

Sporty design with contemporary lens shape and a sleek profile of safety glasses that can combine well with other personal protective equipment.

3M™ Scotchgard™ Protector Anti-Fog/Anti-Scratch Coating

- Resist fogging longer than traditional anti-fog coating, up to 25 washings with water (select models).
- Helps provide durable scratch resistance in tough work environments.
- Meets Anti-Fog Performance (X) requirements of the ANSI-ISEA Z87.1-2020 Standard.

- The adjustable ratcheting temples of the SecureFit 500 series are designed to help improve the positioning of the eyewear when worn with half-facepiece respirators.
- SecureFit's flat and flexible temple design combines well with 3M™ Protective Earmuffs.

Available Models:
