## 3VA5150-4ED36-1AA0

circuit breaker 3VA5 UL frame 125 breaking capacity class S 25kA @ 480 V 3-pole, line protection TM210, FTFM, In=50A overload protection Ir=50A fixed short-circuit protection Ii=10 x In UL489 SB (naval), 50 deg. cel. cable connection on both sides

| Model  |                             |
|--|-----------------------------|
| product brand name   | SENTRON                     |
| product designation  | Molded-case circuit breaker |
| product designation / according to UL file   | SEAM                        |
| Product version  | System protection           |
| design of the load switch / according to UL 489 / Heating,<br>Air Conditioning, and Refrigeration circuit breaker (HACR<br>Type) | Yes                         |
| design of the load switch / according to UL 489 / High-<br>Intensity-Discharge circuit breaker (HID Type)                        | Yes                         |
| design of the load switch / according to UL 489 / Switching<br>Duty circuit breaker (SWD Type)                                   | No                          |
| design of the overcurrent release  | TM210                       |
| protection function of the overcurrent release   | LI                          |
| number of poles  | 3                           |
| General technical data   |                             |
| operating voltage / at AC / rated value  | 690 V                       |
| power loss [W] / maximum   | 12 W                        |
| Active power loss / for rated value of the current / at AC / in hot operating state / per pole                                   | 4 W                         |
| mechanical service life (switching cycles) / typical   | 20 000                      |
| Electrical endurance (switching cycles) / at AC-1 / at 380/415 V 50/60 Hz  | 8 000                       |
| Electrical endurance (switching cycles) / at AC-1 / at 690<br>V 50/60 Hz   | 4 000                       |
| electrical endurance (switching cycles) / at 480 V   | 8 000                       |
| electrical endurance (switching cycles) / at 600 V   | 4 000                       |
| Neutral conductors / upgradeable/retrofittable   | No                          |
| ground-fault monitoring version  | without                     |
| product function   |                             |
| <ul> <li>communication function</li> </ul>   | No                          |
| <ul> <li>other measurement function</li> </ul>   | No                          |
| Net Weight   | 0.951 kg                    |
| Current  |                             |
| marking / according to UL 489 / 100%-rated breaker   | No                          |
| operational current  |                             |
| • at 40 °C   | 50 A                        |
| • at 45 °C   | 49 A                        |
| ● at 50 °C   | 48 A                        |
| ● at 55 °C   | 47 A                        |
| ● at 60 °C   | 46 A                        |
| • at 65 °C   | 45 A                        |
| • at 70 °C   | 44 A                        |

| Switching capacity according to IEC 60947  |   |
|--|---|
| switching capacity class of the circuit breaker  | S   |
| design of short-circuit protection   | For switching power values in DC networks, see the 3VA molded case                          |
|  | circuit breaker device manual; link to be found under Service & Support in the last chapter |
| Switching capacity according to UL 489   |   |
| breaking capacity current  |   |
| • at 240 V   | 65 kA   |
| • at 480 V   | 25 kA   |
| • at 600 Y/347 V   | 14 kA   |
| Adjustable parameters  |   |
| product feature / for L-tripping / selectable characteristic<br>function   | No  |
| type of value list setting current (Ir) / for L-tripping / with I2t characteristic   | Fest  |
| reference value setting current (Ir) / for L-tripping / with I2t characteristic  | x In  |
| set values setting current (Ir) / for L-tripping / with I2t characteristic   | 1   |
| adjustable response factor setting current (Ir) / for L-<br>tripping / with I2t characteristic / minimum                                 | 1   |
| adjustable response factor setting current (Ir) / for L-<br>tripping / with I2t characteristic / maximum                                 | 1   |
| adjustable response value setting current (Ir) / of the L-trip / with I2t characteristic / minimum                                       | 50 A  |
| adjustable response value setting current (Ir) / of the L-trip<br>/ with I2t characteristic / maximum                                    | 50 A  |
