

Day of the Geek soldering badge kit

Black /PPKIT4002

White /PPKIT4001

Proto-PIC's Geeky take on 'Dia de los Muertos', The Day of the Geek soldering badge kit.

This simple kit shouldn't take much more than 5 minutes to assemble if you have basic soldering skills and equipment. Included are 3 pairs of coloured LEDs so you have the option of Red, White or Blue eyes.

They've taken the Day of the Dead motif and replaced many of the elements with a more geek orientated look.
