

Thank you for your interest in Allegro MicroSystems!

As a global semiconductor leader in sensor and power integrated circuits and photonics, we're passionate about developing intelligent solutions that move your innovations—and the world—toward a safer and more sustainable future.

Enclosed are the evaluation materials you requested. We hope you will find them useful in your current and future designs.

Ready to get started?

We're here to help. For technical assistance, datasheets, application support, and evaluation tool user guides, visit us at www.allegromicro.com/getstarted.

We appreciate your consideration and look forward to assisting you in your design process.

Thank you,

Your Allegro Team
