# Maker Essentials - Mini Breadboards & Jumper Jerky /PIM245

Hook up simple circuits and components. The breadboards can hold LEDs and chips, and the Jumper Jerky will connect them to other components and then to your Raspberry Pi or Arduino. Great for prototyping!

Maker Essentials are components and useful bits for everyday electronics and tech projects.

Kit contains

- 2x mini breadborards
- 10x short female to female jumper jerky
- 10x short female to male jumper jerky
- 10x short male to male jumper jerky
- 10x long female to female jumper jerky
- 10x long female to male jumper jerky
- 10x long male to male jumper jerky
