

SRA LEAD-FREE TIP TINNER – 21G**Product Description**

SRA Tip Tinner is a compressed tablet that contains a mixture Lead Free Solder and oxide reducing compounds in a metal container with an easy to remove lid. It has a self-adhesive pad on the underside to allow it to be affixed on, or near the work station. SRA's TT-21G Tip Tinner provides fast, efficient cleaning and re-tinning of blackened and highly oxidized soldering iron tips, safely and efficiently.

Key Features

- Lead free (RoHS Compliant)
- Removes tip oxidation
- No-Clean compatible formulation
- Minimal residues
- Rapidly re-tins badly oxidized soldering iron tips

Additional Information

- For safety information please see SDS
