SEMICONDUCTOR®

FDMA1027PT Dual P-Channel PowerTrench[®] MOSFET

–20 V, –3 A, 120 m Ω

Features

- Max $r_{DS(on)}$ = 120 m Ω at V_{GS} = -4.5 V, I_D = -3.0 A
- Max r_{DS(on)} = 160 mΩ at V_{GS} = -2.5 V, I_D = -2.5 A
- Max r_{DS(on)} = 240 mΩ at V_{GS} = -1.8 V, I_D = -1.0 A
- Low profile 0.55 mm maximum in the new package MicroFET 2x2 Thin
- RoHS Compliant
- Free from halogenated compounds and antimony oxides

General Description

This device is designed specifically as a single package solution for the battery charge switch in cellular handset and other ultra-portable applications. It features two independent P-Channel MOSFETs with low on-state resistance for minimum conduction losses. When connected in the typical common source configuration, bi-directional current flow is possible.

The MicroFET 2x2 **Thin** package offers exceptional thermal performance for it's physical size and is well suited to linear mode applications.

Applications

- Battery management
- Load switch
- Battery protection

MicroFET 2X2 Thin

MOSFET Maximum Ratings T_A = 25 °C unless otherwise noted

Symbol	Parameter			Ratings	Units
V _{DS}	Drain to Source Voltage			-20	V
V _{GS}	Gate to Source Voltage			±8	V
ID	Drain Current -Continuous	T _A = 25 °C	(Note 1a)	-3	
	-Pulsed			-6	— A
D	Power Dissipation for Single Operation	T _A = 25 °C	(Note 1a)	1.4	W
PD	Power Dissipation for Single Operation	T _A = 25 °C	(Note 1b)	0.7	vv
T _J , T _{STG}	Operating and Storage Junction Temperat	ure Range		-55 to +150	°C

Thermal Characteristics

R_{\thetaJA}	Thermal Resistance, Junction to Ambient (Single Operation)	(Note 1a)	86	
R_{\thetaJA}	Thermal Resistance, Junction to Ambient (Single Operation)	(Note 1b)	173	°C/W
$R_{\theta JA}$	Thermal Resistance, Junction to Ambient (Dual Operation)	(Note 1c)	69	0.00
$R_{\theta JA}$	Thermal Resistance, Junction to Ambient (Dual Operation)	(Note 1d)	151

DISCLAIMER

FAIRCHILD SEMICONDUCTOR RESERVES THE RIGHT TO MAKE CHANGES WITHOUT FURTHER NOTICE TO ANY PRODUCTS HEREIN TO IMPROVE RELIABILITY, FUNCTION, OR DESIGN. FAIRCHILD DOES NOT ASSUME ANY LIABILITY ARISING OUT OF THE APPLICATION OR USE OF ANY PRODUCT OR CIRCUIT DESCRIBED HEREIN; NEITHER DOES IT CONVEY ANY LICENSE UNDER ITS PATENT RIGHTS, NOR THE RIGHTS OF OTHERS. THESE SPECIFICATIONS DO NOT EXPAND THE TERMS OF FAIRCHILD'S WORLDWIDE TERMS AND CONDITIONS, SPECIFICALLY THE WARRANTY THEREIN, WHICH COVERS THESE PRODUCTS.

LIFE SUPPORT POLICY FAIRCHILD'S PRODUCTS ARE NOT AUTHORIZED FOR USE AS CRITICAL COMPONENTS IN LIFE SUPPORT DEVICES OR SYSTEMS WITHOUT THE EXPRESS WRITTEN APPROVAL OF FAIRCHILD SEMICONDUCTOR CORPORATION.

As used herein:

- 1 Life support devices or systems are devices or systems which, (a) are intended for surgical implant into the body or (b) support or sustain life, and (c) whose failure to perform when properly used in accordance with instructions for use provided in the labeling, can be reasonably expected to result in a significant injury of the user.
- 2 A critical component in any component of a life support, device, or system whose failure to perform can be reasonably expected to cause the failure of the life support device or system, or to affect its safety or effectiveness

ANTI-COUNTERFEITING POLICY

Fairchild Semiconductor Corporation's Anti-Counterfeiting Policy. Fairchild's Anti-Counterfeiting Policy is also stated on our external website, www.Fairchildsemi.com, under Sales Support.

Counterfeiting of semiconductor parts is a growing problem in the industry. All manufactures of semiconductor products are experiencing counterfeiting of their parts. Customers who inadvertently purchase counterfeit parts experience many problems such as loss of brand reputation, substandard performance, failed application, and increased cost of production and manufacturing delays. Fairchild is taking strong measures to protect ourselves and our customers from the proliferation of counterfeit parts. Fairchild strongly encourages customers to purchase Fairchild parts either directly from Fairchild or from Authorized Fairchild Distributors who are listed by country on our web page cited above. Products customers buy either from Fairchild directly or from Authorized Fairchild Distributors are genuine parts, have full traceability, meet Fairchild's quality standards for handing and storage and provide access to Fairchild's full range of up-to-date technical and product information. Fairchild and our Authorized Distributors will stand behind all warranties and will appropriately address and warranty issues that may arise. Fairchild will not provide any warranty coverage or other assistance for parts bought from Unauthorized Sources. Fairchild is committed to combat this global problem and encourage our customers to do their part in stopping this practice by buying direct or from authorized distributors.
