

USB to Micro-B Adapter

COM-14567

It's tiny, it's handy, and it can give your normal USB-equipped device a micro-B connector! With the USB to Micro-B Adapter you can make a flash drive connect to your tablet, connect a keyboard to your phone in order to text with ease, attach a Bluetooth® dongle to your RPi Zero, and more! Since this adapter is super small, it is very easy to transport anywhere you might need it — making it extremely convenient to have in a pinch.

Installation of the USB to Micro-B Adapter is easy; simply slide it into a USB A connector, and you will instantly make that device micro-B capable!
