

Digital to Analog Audio Converter (with AC Power Adapter) HMC-3088

This Digital to Analog Audio Converter is designed for either home or professional audio switching. It takes audio from your multichannel S/PDIF or TOSLINK digital audio source and converts it to standard L/R analog audio, available for connection to an external device such as an amplifier or recording deck via standard RCA- and 3.5mm jack, or simply just connect to earphone.

- Converts Optical (Toslink®) digital stereo audio signals to analog R/L audio signal
- Supports sampling rates at 32, 44.1, 48, and 96 kHz
- 24-bit S/PDIF incoming bit stream on left and right channels
- Provides electromagnetic-noise-free transmission
- Easy to install and simple to operate
- Supports 2-channel LPCM digital audio only

Model: HMC-3088

Input: Optical Toslink or Digital Coax RCA

Output: Analog stereo RCA

without us, you are just not connected!
