Item	Description
BLUE-HGC1MD	D-Ring Heel Grounder, 1 Megohm Resistor

UL Listed

Note: This product is not recommended for use on equipment with operating voltage exceeding 250 VAC.

CAUTION: The ESD Series is for electrostatic control. It will not reduce or increase your risk of receiving electric shock when using or working on electrical equipment. Follow the same precautions you would use without wrist straps, including:

- Make certain that equipment having a grounding type plug is properly grounded.
- Make certain that you are not in contact with grounded objects other than through the ESD Series

Unless otherwise noted, tolerance ± 10%

Specifications and procedures subject to change without notice.
