

Instruction / Installation Sheet Brush Plate Décor Insert with Décor Wallplate Part # 45-0018-WH

Use the Brush Plate Décor Insert to install low voltage cables behind your HDTV, amplifier or other audio video devices. The Brush Plate Décor Insert is designed to be installed onto a low voltage mounting bracket (sold separately) that is installed into the wall.

- This product is designed for use with low voltage cables ONLY.
- DO NOT run or pull a TV cord or other electrical cords inside the wall.
- It is a violation of the National Electric Code (NEC) to run power cords or extension cords behind the wall.

Tools Needed

Phillips Head Screw Driver

Installation

1. Before installing the Brush Plate Décor Insert, you must first install a low voltage mounting bracket (sold separately) into the wall. Refer to the instructions on the low voltage mounting bracket for assistance.
2. Run low voltage A/V cables through the opening in the low voltage mounting bracket, and then through the opening of the Décor Insert.
3. Place the Décor Insert against the low voltage mounting bracket. Using the two (2) included screws, screw the Décor Insert into place on the low-voltage mounting bracket.
4. Install the included décor wallplate over the Décor Insert.

Caution:

- Never install low voltage wiring during lightning storms.
- Never touch un-insulated wires or terminals unless the wire has been disconnected at its network interface.
- Use caution when installing or modifying data or telecommunication lines.
- DO NOT alter, change, or disconnect existing telecommunication wires if you are unsure of their purpose or function.
- It is NOT recommended to install this product in close proximity to an electrical service panel to prevent interference from electrical current.

Important Instructions:

- Read and understand all instructions.
- Do not use this product near water, for example near bath tub, wash bowl, kitchen, sink, or laundry tub, in a wet basement, or near a swimming pool.
- SAVE THESE INSTRUCTIONS.
