

Grove - Mega Shield v1.2

SKU 103020027

DESCRIPTION

Mega Shield is a extension board for Arduino Mega and Google ADK. We have standardized all the connectors into 4 pins(Signal 1, Singal 2, VCC and GND) 2mm connectors and keep some of the 3pin(Signal, VCC and GND) 2.54mm headers for Servo and Electronic Bricks , which simplify the wiring of electronics projects. The 4pins buckled connectors also make the wiring situation more stable. The Mega Shield includes Digital 0 - 21 and Anolog 0 - 15; We abandon Digital 22 - 53 for easily installing Mega Shield with Xduino Mega/Google ADK.

Features

- Arduino Mega1280/2560 compatible
- Grove compatible
- Google ADK compatible

For all Grove users (especially beginners), we provide you guidance PDF documents. Please download and read through [Preface - Getting Started](#) and [Introduction to Grove](#) before your using of the product.
