

High Performance

4K, UHD, 3D, Audio Return Channel (ARC), 4096 x 2160 Capabilities, Extra Color Spaces, Ethernet Channel.

Perfect Flexibility

This HDMI cable can withstand bend test of 50,000+ times without reducing cable flexibility and ensure the best performance possible.

Flawless Transmission

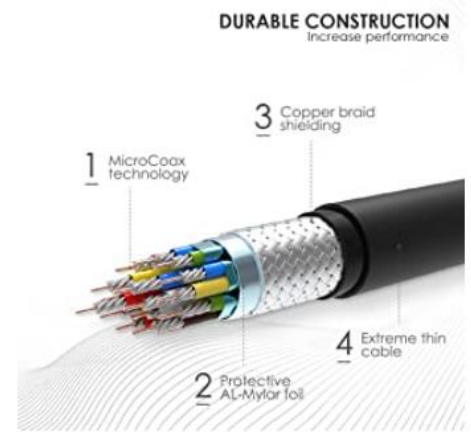

No screen flicker, black screen and snowflake. Enjoy a crystal-clear TV sound quality while experiencing deep colors and high-resolution images

Durable Construction

The HDMI cable features MicroCoax technology and copper braid shielding that prevent interference and increase performance.

Perfect flexibility :

- Reliable & durable - from **Micro-Coax Technology**
- **50,000+** bend lifespan make it extraordinary durability.

Strong anti-interference :

- Avoid flickering screen
- Stable transmission

Durable construction :

- Built to be flexible, lightweight, and durable
- Increase performance.

Universal Compatibility :

- HDMI Ethernet channel
- Audio Return Channel
- 3D Support
- 4096 x 2160 Capabilities
- Extra Color Spaces

Give You More Possibilities :

- Mirror Mode: The two screens display the same picture, good helper for meetings
- Extended Mode: Multi-task split screen operation, one work, one entertainment, to solve your different needs

4K UHD Transmission :

- Enjoy immediate connectivity and sharp picture quality with the Nanosecond 4K HDMI Cable.
