NORTH STAR™

LED Round UFO High Bay

Beyond LED's NorthStar LED Round UFO High Bay Light is one of the most feature rich products of 2022. This product is designed to maximizes light output with efficacy up to 138 Lumens per Watt. NorthStar is built to last with standard 6KV surge protection, 45°C ambient temperature rating, and IP65 rating for elimination of dust, moisture, and airborne contaminants. The NorthStar High Bay can be integrated with feedback control systems. The unique easy connect driver to optical assembly interface allows quick and easy maintenance for applications including warehousing, gymnasiums, manufacturing, and outdoor canopies.
NORTH STAR™

LED Round UFO High Bay

Product Features

- Operating temperature: -40°C to 50°C
- Up to 138 Lumens per Watt efficacy
- 0-10V Dimming capability
- Plug and play motion sensor
- Several optional mounting options
- Integral LED driver, eliminates the need for an external driver or ballast
- Complies with UL safety regulations and is DLC listed
- This product is IP65 rated, therefore, it is suited for both indoor and outdoor applications

- Spotless soft light without shadow
- Optional Emergency backup
- Lumileds or Samsung chip with high CRI
- Universal 120-277Vac / 480Vac optional
- No UV or IR in the beam
- Environment friendly with no mercury
- Easy to install and operate, with instant and no humming
- Energy saving with long lifespan

## Installation Instructions

Hook Mount

1. Screw the hook into the fixture, tighten and fix it, (figure 1) 2. Hang the fixture on the ceiling hook or chain, (figure 2) 3. After installation, connect the wire of the fixture to the mains according to local wiring rules, ensure the connection is stable and protected on the connection.

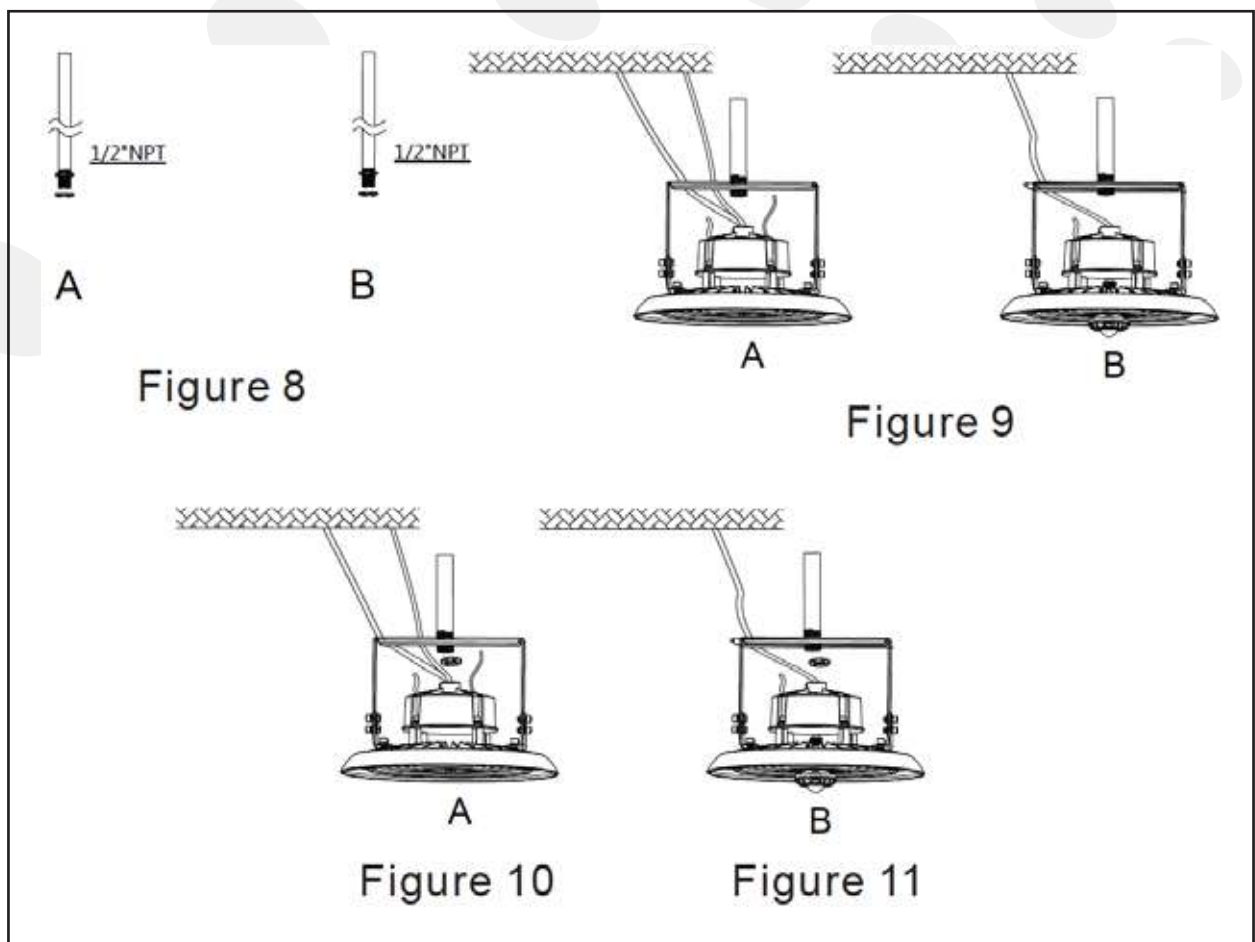

Figure 1

Figure 2

A   B
Celling Mount

1. Mark with a marker pen or sharpie tool on the mounting surface and drill. (figure 3) 2. Fix screws into the holes with a hammer, (figure 4) 3. Align the bracket hole with screw hole (figure 5), and push the fixture to one side (figure 6) and fix it 4, After installation, connect the wire of the fixture to the mains according to local wiring rules, ensure the connection is stable and protected on the connection. By adjusting the brackets screws, users can adjust 50° to the left or right vertically. (figure 7)

Motion Sensor

The fixture has integrated function 3 Power selectable. The setting could be customized. Operation: Take away the water-proof gasket, adjust dip switch to choose Power as per sign. The original setting could be either factory default or customized request{Figure 12-1

Figure 12-1

Caution

1. Can not use the electric generator to test the LED light .
2. Please abide by related country, regional and local law and regulations when installing this fixture.
3. Please turn off the power before installation or maintenance.
4. Proper grounding is required to ensure safety.

Notice

1. To avoid possibility of electrical shock or fire, the installation personnel must have professional electric knowledge.
2. Please wear gloves to avoid injury before installation.
3. If there is any smoke or spark, please turn off the power immediately and consult a qualified ele-ctrician.
4.Please use listed water proof strain relief bushing when connection the supply cord to the outlet box.
