CC2695P Series

Dual Wire Coil Cord with Parking Jack

The CC2695-P's polyurethane coil insulation and strain relief molding offers excellent coil memory and endurance. The molded snap head provides a convenient parking jack for the cord when not in use. Two female snaps, a 3.5mm phono plug and 1 meg resister are standard.

Dual wire wrist straps provide redundancy. When used with resistive loop (dual wire) monitors, the CC2695P wrist strap sets continuously verify resistance to ground.

Parking Jack

	Product	Specific	ations
--	----------------	----------	--------

<u>Coi</u>	Cord

Length: 5', 10', and 20' feet, extended

Resistor: 1 meg ohm Flex Life: > 20,000 flexes

Color: Blue, black

Banana: 3.5mm phono plug*

*Compatibility with particular resistance monitors should be verified.
