

Designed to splice two wires together quickly and easily, these splice connectors are perfect for splicing 22-26 AWG (0.64 - 0.40 mm) telephone wires. These splice connectors also feature the following:

- Self-stripping design, so no separate stripping needed
- Gel-filled cavity provides moisture resistance, and the housing is insulated to prevent accidental shocks
- Works with 22-26 AWG (0.64 - 0.40 mm) electrical or telephone wires
- Great for sensor and polarity wires
- Lifetime Warranty
