

## WIFI Antenna

AN\_W413

### Mechanical dimension

## WIFI Antenna

### Specifications

| Item          | Specifications           |  |
|---------------|--------------------------|--|
| Antenna       | Frequency Range          | 2400~2500MHz                           |
|               | Polarization             | Linear                                 |
|               | Gain (Zenith)            | 3.0dBi                                 |
|               | V.S.W.R                  | <2.0                                   |
|               | Impedance                | 50Ω                                    |
| Mechanical    | Cable                    | 4 meters                               |
|               | Connector                | RP-SMA Plug                            |
|               | Mounting Method          | Magnet                                 |
| Environmental | Operating Temperature    | -40°C ~+85°C                           |
|               | Vibration                | 10 to 55Hz with 1.5mm amplitude 2hours |
|               | Environmentally Friendly | ROHS Compliant                         |
