## Thermal magnetic UL 489 miniature circuit breakers

Data sheet  
3644\_en\_A

© PHOENIX CONTACT 2016-06-14

### 1 Description

TMC 8... miniature circuit breakers (MCB) are UL 489 listed and provide branch overload and short-circuit protection. An interrupt capacity of 10 kAIC at up to 277/480 V AC and 125 V DC makes the series ideal for a wide range of applications.

The circuit breakers are available in 1-, 2-, and 3-pole configurations with B, C, and D trip curve options. They are 17.6 mm wide (per pole) and mount on 35 mm NS35 rail. Available accessories include an auxiliary contact, bell alarm contact, shunt trips, lockout/tag out component and busbar. The TMC 8... is UL listed for the U.S. and Canada, TÜV listed, and carries the CE mark.

### 1.1 Typical applications

TMC 8... circuit breakers are suitable for protection of

- cables
- motors
- generators and transformers
- thyristors
- silicon rectifiers
- computers and peripheral equipment
- industrial process control systems
- telecommunications equipment
- power supplies.

This document is valid for all products listed in the "Ordering data" on page 3.

## 4 Installation

### 4.1 Mounting

1. Hook the device over the top edge of the DIN rail and rotate it down until it snaps onto the bottom edge of the rail.
2. Repeat for any additional devices.
3. Slide the devices together into the desired configuration.

### 4.2 Removal

1. Slide the device away to gain sufficient clearance from the next device.
2. Use a screwdriver to raise the latch and release the unit from the bottom edge of the DIN rail.
3. Rotate the device up and lift off of the top edge of the rail.

## 5 Accessories

Several accessories are available for use with the TMC 8... circuit breakers. The accessory modules are mounted on the left side (when facing the device in a mounted position) of the circuit breaker. A variety of busbars are also available.

Figure 5 Busbar and other accessories

### 5.1 Technical data for accessories

#### General data (TMC 7/8 AUX and TMC 7/8 ALARM)

Ambient temperature, operating	-35 ... 70°C (-31 ... 158°F)
Permissible humidity	95%
Degree of protection	IP20
Weight	29 g (approximate)
Width	9 mm
Installation	Left side of circuit breaker
Conductor cross section	1 ... 35 mm <sup>2</sup> /18 ... 2 AWG
Connection type	Screw-clamp terminals
Conductor tightening torque, maximum	1 Nm (8.9 lb <sub>f</sub> -in.)
Service life, mechanical	20,000 cycles

#### Electrical data (TMC 7/8 AUX and TMC 7/8 ALARM)

Nominal voltage, $U_N$	24 V DC ... 125 V DC 120 V AC ... 277 V AC
Rated current (UL 489)	
12 ... 240 V AC	6 A
277 V AC	3 A
12 ... 24 V DC	6 A
48 V DC	2 A
130 V DC	1 A

#### General data (TMC 7/8...SHNT)

Ambient temperature, operating	-35 ... 70°C (-31 ... 158°F)
Permissible humidity	95%
Degree of protection	IP20
Weight	60 g (approximate)
Width	18 mm
Installation	Left side of circuit breaker
Conductor cross section	1 ... 35 mm <sup>2</sup> /18 ... 2 AWG
Connection type	Screw-clamp terminals
Conductor tightening torque, maximum	1 Nm (8.9 lb <sub>f</sub> -in.)
Service life, mechanical	20,000 cycles

**Electrical data (TMC 7/8...SHNT)**

Nominal voltage, $U_N$	24 V DC ... 125 V DC 120 V AC ... 277 V AC
------------------------	---

## Trip voltage, minimum

415 V AC	200 V AC
277 V AC	160 V AC
240 V AC	160 V AC
120 V AC	80 V AC
125 V DC	125 V DC
48 V DC	24 V DC
24 V DC	16 V DC
12 V DC	8 V DC

## Rated current of auxiliary contact

415 V AC	3 A
277 V AC	3 A
240 V AC	6 A
120 V AC	6 A
125 V DC	1.5 A
48 V DC	2 A
24 V DC	6 A
12 V DC	6 A

## Power consumption/minimum response power

415 V AC	240 W/35 W
277 V AC	240 W/35 W
240 V AC	200 W/35 W
120 V AC	200 W/35 W
125 V DC	200 W/30 VA
48 V DC	200 W/30 VA
24 V DC	200 W/30 VA
12 V DC	200 W/30 VA

## Trip time

&lt;10 ms

**General data (TMC 8 B...)**

Ambient temperature, operating	-35 ... 70°C (-31 ... 158°F)
Permissible humidity	95%
Degree of protection	IP20
Step size	17.8 mm
Busbar cross section	18 mm <sup>2</sup>

**Electrical data (TMC 8 B...)**

Maximum voltage	480 V AC/DC
Rated current at 35°C (UL 489)	
Power supply at the end	80 A
Power supply in the middle	160 A
SCCR $I_{CC}$	10 kA

**Electrical data (TMC 8 B TERM PIN)**

Maximum voltage	480 V AC/DC
Maximum current	115 A
Connection type	Screw clamp
Tightening torque, maximum	5.5 Nm (50 lb <sub>F</sub> -in.)

### 5.2 Auxiliary contact (TMC 7/8 AUX)

The TMC 7/8 AUX is an auxiliary contact with one normally open and one normally closed contact. The status of the contacts are switched when the breaker on/off state changes.

Figure 6 TMC 7/8 AUX schematic

After the TMC 7/8 AUX module is attached to the TMC 8... circuit breaker, terminals 11 and 14 are connected when the circuit breaker is in the "on" condition. Terminals 11 and 12 are connected when the circuit breaker is in the "off" condition.

### 5.3 Alarm contact (TMC 7/8 ALARM)

The TMC 7/8 ALARM provides an additional contact which can be connected to a bell, light or other alarm. If the TMC 8... trips, the alarm contact switches power to the load.

Figure 7 TMC 7/8 ALARM schematic

After the TMC 7/8 ALARM module is attached to the TMC 8... circuit breaker:

- Terminals 91 and 92 are connected when the circuit breaker is in the "on" condition.
- Terminals 91 and 94 are connected when the circuit breaker is tripped electronically.
- Terminals 91 and 92 are connected when the circuit breaker is tripped manually.
- At the same time, terminals 91 and 94 do not make contact.

### 5.4 Shunt trip (TMC...SHNT)

The TMC 7/8...SHNT provides an electrically operated remote trip for the circuit breaker.

Figure 8 TMC 7/8 AUX schematic

### 5.5 Accessory installation

Installation is the same for all types of accessories.

1. Remove the end pieces (1) from the TMC 8... by sliding it up and away from the center section (2) of the circuit breaker.

Figure 9 Removing tabs for accessory installation

2. Use a small pliers and remove the end piece tabs (3) and the center section tabs (4).
3. Remove the tape seal (5) covering the electrical interface.

Figure 10 Accessory installation

4. Place the accessory in position on the left side of the TMC 8... making sure to align the locking clips (1), latch (2), and switch handle (3) with the TMC 8....
5. Reinstall the end pieces (4) previously removed.

**NOTE:**  
The end pieces must be installed to maintain UL 489 compliance.

6. Install on the mounting rail, and connect wires, as required.

**5.6 Busbars and related accessories**

Busbars can be purchased for 1-, 2-, and 3-pole circuit breakers. They are also available to accommodate the circuit breakers if either the TMC 7/8 AUX or TMC 7/8 ALARM is used.

connection to the busbar without increasing the installation space on the mounting rail.
