Owl

Embedded Processing Unit

95 x 95 x 29 mm (3.7 x 3.7 x 1.14")

Overview

The Owl is a small, rugged board-level embedded computer. Approximately four inches square and one inch thick, the Owl is a member of VersaLogic's ultra-rugged x86 computer family. Equipped with a powerful dual- or quad-core Intel "Apollo Lake" processor, and soldered-on ECC RAM, the Owl is designed to withstand extreme temperature, impact, and vibration.

Up to 8 GB of soldered-on Error Correcting Code (ECC) memory is available for high-reliability applications. ECC memory is beneficial in environments where single bit memory errors may occur, such as cosmic ray interactions which increase dramatically with altitude.

A TPM 2.0 chip supports hardware-based security.

On-board I/O includes dual Gigabit Ethernet, USB 3.0 and 2.0 ports, serial ports, and analog inputs. SATA interface, eMMC Flash options, and a microSD socket provide a range of data storage options. Dual Mini PCIe sockets accommodate a wide range of plug-in accessory cards.

The on-board power conditioning supports an input of 8 to 30 volts to simplify system power supply requirements. The Owl is fully compatible with 12 or 24V vehicle applications. Over Voltage Protection and Reverse Voltage Protection are included to enhance reliability in the field.

For hostile environments, the Owl is designed and tested for full industrial temperature operation (-40° to +85°C) and meets MIL-STD-202H specifications for shock and vibration.

VersaLogic's 10+ year product life support programs ensure long-term availability. This avoids expensive upgrades, redesigns, and migrations that come from shorter lifecycle products.

Highlights

- Error-correcting RAM. Up to 8 GB
- -40° to +85°C Operating Temperature
- Intel[®] Atom[™] Apollo Lake processor
- Dual core or quad core
- TPM 2.0 security
- COMe compact size (95 x 95 x 29 mm)
- On-board power conditioning. 8 to 30 volt input

Features

1 On-board Power Conditioning (on back)
Accepts 8 to 30 volts DC. Overvoltage and reverse polarity protection. RF noise filtering.

2 High-performance Video

Integrated Intel HD Graphics 505/500 supports Ultra HD 4k, DirectX 12, OpenGL 4.3, and H.264, MPEG-2 encoding/decoding. DisplayPort++ (2a) and LVDS (2b) video outputs support multiple display modes including Extended Desktop and Clone. LVDS backlight control (2c).

Network

Dual GbE Ethernet interfaces. Autodetect 10BaseT/100BaseTX/1000BaseT with remote boot support.

4 SATA (on back)
SATA III port supports bootable SATA drive.

5 Mini PCIe Card Sockets

Dual full-sized sockets. Supports A/D, Wi-Fi modems, GPS, MIL-STD-1553, Ethernet, flash data storage, and other Mini PCIe modules.

6 MicroSD Socket

Supports removable microSD card solid-state drives.

Industrial I/O

One USB 3.0 port (7a) and four USB 2.0 ports (7b) support keyboard, mouse, and other devices. Eight 3.3V digital I/O lines, three 8254 timer/counters, and I2C support (7b).

8 Serial Communications

Four RS-232/422/485 serial ports.

9 Analog

Eight 12-bit analog input channels for data acquisition support.

10 SPI Interface

Supports SPI and SPX devices, including low cost analog and digital modules.

Intel Atom "Apollo Lake" Processor

Up to 2 GHz burst clock rate. Quad- or dual-core options. Low power consumption.

Embedded Processing Unit

The assembled and tested 2-board set creates a complete embedded computer in an extremely small and rugged format.

Fanless Operation

No moving parts required for CPU cooling in most configurations.

RAM

Up to 8 GB error-correcting soldered-down RAM enhances system reliability.

Flash

Up to 32 GB of on-board eMMC non-volatile memory.

Industrial Temperature Operation

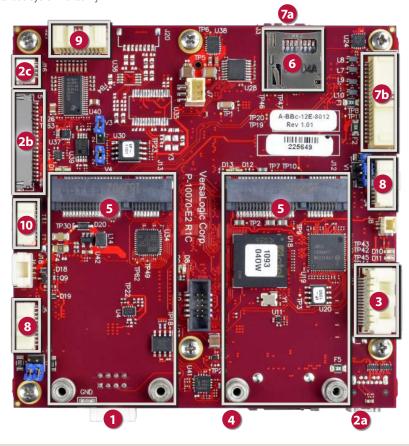

-40° to +85°C operation for harsh environments.

Qualified for high shock/vibration environments.

Software Support

MIL-STD-202H

Compatible with a variety of popular x86 operating systems including Windows, Windows Embedded, Linux, and VxWorks. Supported by the VersaAPI I/O routines

Modify Owl to Your Exact Requirements

COTS modifications are available in quantities as low as 100 pieces.

- On-board RAM Size
- Non-ECC memory
- On-board Flash Storage Size
- Conformal Coating
- Custom Cabling
- Connector & I/O Changes
- Custom Testing
- Custom Labeling
- BGA Underfill
- BIOS Modifications
- Software and Drivers
- Revision Locks
- Custom Screening
- Application-Specific Testing
- Etc.

Specifications

0	1						
General							
Board Size	95 x 95 x 29 COM Expre						
Weight	200 grams (7.05 oz.)						
Processor	Intel Atom E39xx platform. 2 MB L2 cache. Intel 64-bit instructions, Virtualization Technology (VT), AES New Instructions, Secure Boot, Secure Key, and Execute Disable Bit						
Battery	Connection for 3.0V RTC backup battery. Battery not required for operation.						
Power Requirements	Model			Idle	Typical	Мах.	S3

Video							
General	Integrated high-performance video. Intel HD Graphics 505 with 18 Execution Units (EPU-4012-EDP) or Intel Graphics 500 with 12 Execution Units (EPU-4012-EAP). Turbo Boost. Supports DirectX 12, OpenGL 4.4, Quick Sync Video, Clear Video HD Technology, Clear Video Technology, VP8, VP9, MPEG2, H.264, H.265, and VC1.						
VRAM	Up to 2 GB						
DisplayPort Interface §	Mini DisplayPort++ output. 24-bit. Up to 4096 x 2160 @ 60 Hz. Supports DisplayPort and HDMI signaling (Video and Audio outputs).						
OEM Flat Panel Interface	Single-channel LVDS interface. 18/24-bit. Up to 1200 x 800 (60 Hz). Backlight control signals.						

Mass Storage				
Rotating Drives / Flash / SSD ¥	 One SATA III port. Latching connector. On-board eMMC MLC Flash drive. 8 or 32 GB. One microSD socket. Mini PCle socket with mSATA support. 			
Network Interface				
Ethernet ‡	Two AutoDetect 10BaseT/100BaseTX/1000BaseT ports. Latching connector. One port with network boot option.			
Device I/O				
USB ‡§	One USB 3.0 / 2.0 port and four USB 2.0 host ports.			
COM Interface ‡	Four RS-232/422/485 selectable. 16C550 compatible. RS-232 115 Kbps – RS-422/485 460 Kbps max.			
Digital I/O	Eight TTL I/O Lines 3.3V. Independently configurable.			
Analog Input	Eight channels. 12-bit. Single-ended. 500 Ksps. Independently configurable +/- 0.64V to +/- 10.24V high input impedance inputs.			
I2C	Single I2C interface			
Counter / Timers	Three 8254 compatible Programmable Interval Timers (PITs).			
VersaLogic SPI Interface	Supports SPI and SPX devices. Supports up to two SPX modules.			
Mini PCIe Card Socket				
General	Supports Wi-Fi modems, GPS receivers, MIL-STD-1553, Ethernet channels, non-volatile flash data storage, and other plug-in modules.			
Socket #1	Full size. USB, SATA, and PCIe signaling. Autodetect mSATA support.			
Socket #2	Full size. PCIe and USB 2.0 signaling.			
Software				
BIOS	Phoenix SecureCore Technology™ UEFI BIOS with OEM enhancements. Field reprogrammable.			
Sleep Mode	ACPI 3.0. Supports S3 and S4 suspend states.			
Operating Systems	Compatible with most x86 operating systems including Windows, Windows Embedded, Linux, and VxWorks.			
VersaAPI Support	Library of API calls for reading and controlling on-board			

† Represents operation at +25°C and +12V supply running Windows 10 with LVDS display, SATA, GbE, COM, and USB keyboard/mouse. Typical power computed as the mean value of Idle and Maximum power specifications. Maximum power measured with 90% CPU utilization.

devices. Visual Studio and C/C++ software development

interfaces. Supported on Windows and Linux.

- \Diamond Derate -1.1°C per 305m (1,000 ft.) above 2,300m (7,500 ft.)
- * Extended altitude specifications available upon request.
- ‡ TVS protected port (enhanced ESD protection)
- § Power pins on this port are overload protected
- ¥ Bootable storage device capability
- p MIL-STD-202H shock and vibe levels are used to illustrate the extreme ruggedness of this product in general. Testing at higher levels and/or different types of shock or vibration methods can be accommodated per the specific requirements of the application. Mini PCle Modules

Part Number	Description	Form Factor				
Network						
VL-MPEe-E3E	Dual Gigabit Ethernet adapter (PCIe signaling)	Mini PCle				
VL-MPEe-E4E	Gigabit Ethernet over Fiber adapter (PCIe signaling)	Mini PCle				
VL-MPEe-E5E	Gigabit Ethernet adapter (PCIe signaling)	Mini PCle				
VL-MPEe-E6E	Gigabit Ethernet (PCIe signaling)	Mini PCle				
VL-MPEe-E6E-P	Gigabit Ethernet with POE+ (PCIe signaling)	Mini PCle				
VL-MPEe-FW1E	FireWire adapter (PCIe signaling)	Mini PCle				
VL-MPEu-C1E	Dual CAN Bus Interface (USB signaling)	Mini PCle				
Serial I/O						
VL-MPEe-U2E	Quad serial plus twelve GPIOs (PCIe signaling)	Mini PCle				
Analog & Digital I/O						
VL-MPEe-A1E	Analog input (12-bit resolution) (PCIe signaling)	Mini PCle				
VL-MPEe-A2E	Analog input (16-bit resolution) (PCIe signaling)	Mini PCle				
GPS						
VL-MPEu-G2E	GPS receiver (USB signaling)	Mini PCle				
VL-MPEu-G3E	Advanced GPS receiver (USB signaling)	Mini PCle				
Video						
VL-MPEe-V5E	VGA and LVDS Interface (PCIe signaling)	Mini PCle				
Solid-State Storage (flash memory)						
VL-MPEs-F1Exx	4/16/32 GB mSATA drive (SATA signaling)	Mini PCle				
Adapters						
VL-MPEs-S3E	SATA adapter (SATA signaling)	Mini PCle				

Take the Risk out of Embedded Computing

Whether it's selecting the optimum solution for your application, providing expert support during development, or on-time delivery of defect-free products, VersaLogic is here to make sure your project goes smoothly from initial concept through the extended life of your program. Contact VersaLogic today to learn more.
