

SPECIAL NOTE:

Cabinet comes pre-assembled then installed onto wall with wall mounting bracket.

Use proper fasteners for the material where the mounting bracket will be mounted onto. Example: Use wood screws if cabinet is going to be mounted into wood studs.

ASSEMBLY INSTRUCTIONS:

- 1) Install wallmount bracket (Item 2) to desired location on wall using 4 screws.
Ensure bracket is fastened securely to support fully loaded weight of cabinet.
- 2) Lift SWCC cabinet (Item 1) and slide into protruding flange on wallmount bracket.
- 3) Using 2 self tapping screws provided, fasten the cabinet to the mounting bracket to ensure that the cabinet will not move.
