T35 Series Tips	
<p>T35-xxD1</p>	<p>T35-xxD06</p>
<p>T35-xxI</p>	<p>T35-xxJ</p>
<p>T35-xxKU</p>	

Note: xx:02 = 400°C (750°F) | xx:03 = 350°C (660°F)

**Comments:**

Hakko would like to introduce the new HAKKO FX-1002 micro soldering iron for use with the FX-100 induction soldering station! The micro soldering iron features a burn resistant cord and a quick heating time. Also, the T35 micro tips offer the same renowned Hakko tip life as well as a similar quick change feature used for Hakko T31 tips. The new micro soldering iron offers the same features and benefits of the FX-100 soldering station in compact micro tip shapes. The Hakko FX100-53 part number is also being introduced to allow purchase of the FX-100 station and the new FX-1002 handpiece without having to purchase the standard FX-1001 handpiece. The FX-1002 handpiece is available to purchase as a conversion kit with the holder and also as the handpiece only.
