

Description

Miniaturised double pole thermal circuit breaker with push-to-reset tease-free, trip-free, snap action mechanism (R-type TO CBE to EN 60934). Threadneck panel mounting. Suitable for line and neutral switching - the thermal actuator operating on one pole simultaneously opens both poles under overload conditions. Approved to CBE standard EN 60934 (IEC 60934).

Typical applications

Motors, transformers, solenoids, hand-held machines and appliances. Especially suited to AC duties where the correct orientation of line/neutral is not known/cannot be guaranteed.

Ordering information

Type No.
1140 double pole threadneck panel mounting

Mounting

G1 threadneck panel mounting 3/8-27UNS, with hex nut and knurled nut (hardware bulk shipped with 5 pcs plus)

Number of poles

5 double pole, 1-pole protected

Actuator style

1 black push button

Terminal design

P7 blade terminals DIN 46244-C (QC 2x.110)

Characteristic curve

M1 medium delay

Current ratings

0,05...16 A

1140 - G1 5 1 - P7 M1 - 16 A ordering example

Preferred types

Internal connection diagram

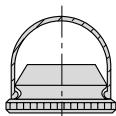

Typical time/current characteristics at +23 °C/+73.4 °F

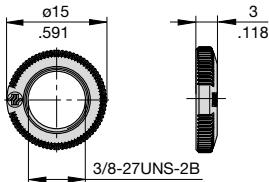

The time/current characteristic curve depends on the ambient temperature prevailing. In order to eliminate nuisance tripping, please multiply the circuit breaker current ratings by the derating factor shown below. See also section Technical information.
