

## RJ45 Inline Couplers

### Link together Ethernet or phone cables

Use these handy couplers to extend your cables. Link several patch cables together or extend existing modular cable runs. These in-line couplers provide female-to-female straight-through connections (to connect two Ethernet cables) or crossover connections (to connect two phone cables).

**RJ45FF8PS** – 8-pin, RJ45 female on both ends, straight through connections, ABS molding case, Phosper bronze gold plated contacts, ivory color.

**RJ45FF8PC** – 8-pin, RJ45 female on both ends, pin crossovers (1 to 8, 2 to 7, 3 to 6, 4 to 5), ABS molding case, Phosper bronze gold plated contacts, ivory color.

Model Number	Description	1-9	10-19	20-49	50-99	100+

#### Mike's politically incorrect eConnections™ newsletter

Most company “newsletters” are dry as bone dust and full of cheesy promos. Right? You delete them just as soon as they show up in your mailbox. Big Yawn. Mine is nothing like that.

Hi, my name is Mike Fahrion, and every few weeks I dish out practical tips for getting all those pieces of equipment in your care to talk to each other. We give out special freebies too—like specialized reports and tech guides, to make your job easier.

Visit [www.bb-elec.com/econnections](http://www.bb-elec.com/econnections) now to subscribe.

**WARNING:** If I'm tweaked about something, you'll hear about that, too—if the occasional poke at our own Dilbert lifestyle offends you, or if you're a card carrying member of, well, just about anything—well, you might want to skip this one.

Sign up today to get the next issue. We respect your privacy and intensely dislike SPAMMERS as much as you do. So your email address is never given, sold or traded to anyone, and of course you can unsubscribe at any time.
