

MCX Probe Kit (X1 X10) for DSO Quad

SKU 321080035

Description

This MCX Probe kit is designed for use with our DSO Quad. It includes a 60MHz professional probe with hook and tip as well as ground lead and marker ring. There's also a switch for you to shift from X1 mode to X10 mode

Specification

- Oscilloscope input capacity 10pF - 40pF
- Attenuation 1:1 10:1
- Input capacity 98pF $\pm 10\%$ @1:1, 33pF $\pm 4\text{PF}$ @ 10:1
- Internal resistance $12\Omega \pm 10\%$ @1:1 $9\text{M}\Omega \pm 1\%$ @10:1
- Bandwidth 20MHZ($\pm 3\text{dB}$)@1:1 60MHZ($\pm 3\text{dB}$)@10:1
- Max input voltage 600V(AC p-p) or 200V(DC+AC p-p)
