AWG 1/0	AWG 2/0	AWG 3/0
AWG 4/0	300 MCM	350 MCM
500 MCM	600 MCM	

The Quik Crimp 6 Ton is a battery-operated hex crimping tool with die sets. Its microcomputer control system automatically detects pressure when crimping, with double safety protection. This tool is equipped with a pressure release function and a double piston which is characterized by a fast approach towards the connector material, then a transfer to high pressure automatically with slower crimping. The crimping head can be smoothly turned by 350° around the longitudinal axis in order to gain better access to tight corners and other difficult working areas. The Quik Crimp accepts industry standard 6 ton dies.
