

Octopus Digital Push Button Brick- Blue

The Pi Supply Digital Push Button Brick is a sensor which detects when you press the button. It is ideal for beginners to test with an Arduino.

There are two colour available:

- Red
- Blue

What are Octopus Electronic Bricks?

Pi Supply Octopus Electronic Bricks can be used to build electronics projects just as easy as piling bricks. You can also connect Arduino compatible boards easily with various digital, analog and I2C/Uart interfaces. The breadboardless connections let you connect expansion modules like potentiometers, sensors, relays, servos, buttons in a plug and play way.

Features

- 3P buckled wires connector
- Plug and play

Specification

- Big button module pin definition: (1) Output (2) VCC (3) GND

What's Included

- 1 x Digital Push Button Brick
- 1 x Analog Sensor Cable
