

ADT-060A

Highlights & Features

- Up to 89% efficiency
- Meet ErP Lot 7 & DoE VI
- No load power consumption < 0.15 W
- Over-Voltage/Load/Temperature & Short Circuit protections •
- Limited Power Source (LPS) certified

Safety Standards

CB Certified for worldwide use

Model Number: **Unit Weight:**

ADT-060A A B-A 180±10 grams (6.35±0.35 ounces) Dimensions (W x L x H): 46.0 x 108.0 x 29.5 mm (1.81 x 4.25 x 1.16 inch)

General Description

The ADT-060A adapter comes with universal AC input at 85 Vac to 264 Vac. With the efficiency up to 89% and the extremely low noload power consumption below 0.15 W, the ADT-060A is compliant with DoE level VI and ErP Lot 7 efficiency standard for energy savings. The supreme feature allows the adapter to save the energy when it is either under the operating mode or under the standby mode.

Model Information

Model Number	Input Voltage Range	Rated Output Voltage	Rated Output Current
ADT-060A12A B-A	85-264 Vac	12 Vdc	5.0 A
ADT-060A15A B-A		15 Vdc	4.0 A
ADT-060A19A B-A		19 Vdc	3.2 A
ADT-060A24A B-A		24 Vdc	2.5 A

Model Numbering

1

1) Criteria A: Normal performance within the specification limits

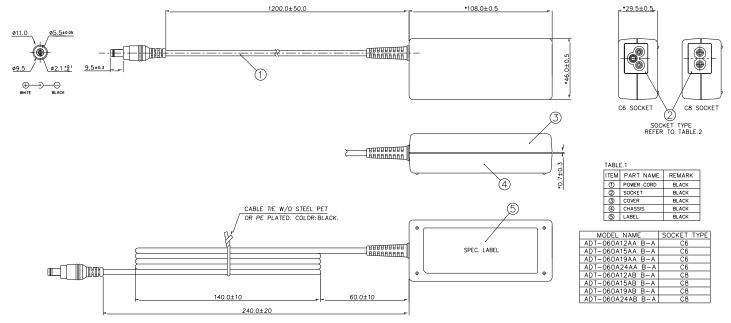

2) Criteria B: Output out of regulation, or shuts down during test. Automatically restore to normal operation after test.

3) Criteria C: Loss of function is allowed, provided the function is self-recoverable, or can be restored by the operation of the controls by the user in accordance with the manufacturer's instructions.

Others

PFC - Norm EN 61000-3-2

Line Current Harmonic content

Typically, the input current waveform is not sinusoidal due to the periodical peak charging of the input capacitor. In industrial environment, complying with EN 61000-3-2 is only necessary under special conditions. Complying to this standard can have some technical drawbacks, such as lower efficiency as well as some commercial aspects such as higher purchasing costs. Frequently, the user does not profit from fulfilling this standard, therefore, it is important to know whether it is mandatory to meet this standard for a specific application.

Attention

Delta provides all information in the datasheets on an "AS IS" basis and does not offer any kind of warranty through the information for using the product. In the event of any discrepancy between the information in the catalog and datasheets, the datasheets shall prevail (please refer to **www.DeltaPSU.com** for the latest datasheets information). Delta shall have no liability of indemnification for any claim or action arising from any error for the provided information in the datasheets. Customer shall take its responsibility for evaluation of using the product before placing an order with Delta.
