

AUTHTREND

The Future of Identity Protection is Human

AuthenTrend is on a mission to replace passwords with biometrics, aspires to replace all passwords with biometrics to help people take back ownership of their credentials. AuthenTrend applied fingerprint-authentication technology to the FIDO2 security key and is trusted by Microsoft Intelligent Security Association, FIDO, and RSA. ATKeys are one of the first in the world to be FIDO2-certified. With AuthenTrend, companies can decrease IT expenses annually by eliminating the hassles of password reset and reducing the likelihood of costly malware and phishing attacks due to weak passwords.

Desktop / PC

Highly Secure Design

Built on top of the FIPS 140-2 Level 3 Certified Broadcom® MCU with SecureBoot & SecureXIP capabilities. Store 8-10 encrypted fingerprint templates inside a hardware chip, and cannot be disclosed outside the ATKeys.

Best Fingerprint Experience

ATKeys boast having the fastest fingerprint recognition speeds on the market and function with any HID device. Users can login to websites securely with a simple touch from any angle with outstanding accuracy.

Portable & Light

ATKey.Pro comes in the form of Type A and Type C USBs making for a compact and lightweight design. ATKey.Card is a smart badge that can communicate to the host via USB, BLE, or NFC interfaces.

TYPE-A

15.0 x 26.5 x 8.3mm
Weight: 3.3g

TYPE-C

17.7 x 31.6 x 8.7mm
Weight: 3.7g

Standalone Enrollment

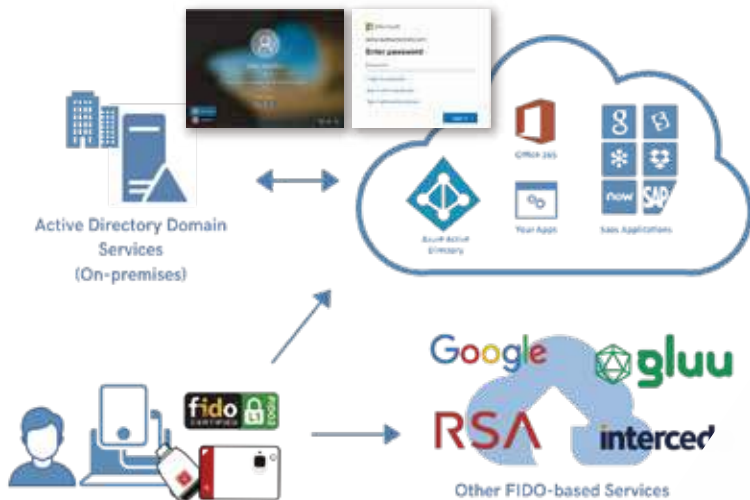

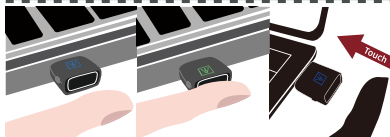

Cross-platform Compatibility

Applications Support FIDO2 & U2F

Better User Experience
