# Power Module

c**RU**us
E227526

Specifications:
Terminal Block Wire Range: 30-12 AWG
Voltage: 125 VAC
Current: 15 Amp

Part Numbers:
IMACP01 - Single Outlet Version
IMACP02 - Duplex Outlet Version

Dimensions:
IMACP01   3.62" x 1.39" x 2.65"
IMACP02   3.62" x 2.81" x 2.65"

One Piece Design - No need to order and assemble separate parts, easy installation

Finger Safe Connections - Allows for increased safety during maintenance

DIN Rail Mountable Design - No need to drill and tap holes to mount

Interface Module Design - Astetically pleasing, looks similar to other interface module products

Labeling Option - Allows the unit to be identified with no added stickers or markers

Clear Marking - Terminals are clearly and permanently marked to prevent wiring errors

Mounts In Equipment Cabinets - Ideal for mounting in equipment cabinets where AC power is required, i.e., laptop computers, test equipment, analyzers, electrical tools, etc.
