

The *N-TRON® 102MC* is an unmanaged 10/100BaseTX to 100BaseFX Industrial Media Converter. It is housed in a hardened, metal, DIN-Rail enclosure, and is designed for use in industrial data acquisition, control, and Ethernet I/O applications.

PRODUCT FEATURES

- Compact, space saving footprint
- Full IEEE 802.3 Compliance
- American Bureau of Shipping (ABS) Type Approval
- EN50155 for Railway applications
- Converts 10/100BaseTX to 100BaseFX
- Unmanaged Operation
- Extended Environmental Specifications
- -40°C to 80°C Operating Temperature
- >2M Hours MTBF
- RJ-45 Port Supports Full/Half Duplex Operation
- LED Link/Activity Status Indication
- Store-and-forward Technology
- RJ-45 Port Auto Senses Speed and Flow Control
- MDIX Auto Cable Sensing (RJ-45)
- Hardened Metal DIN-Rail Enclosure
- Redundant Power Inputs (10-30 VDC)
- ESD Protection Diodes on RJ-45 Port
- Surge Protection Diodes on Power Inputs

PRODUCT OVERVIEW

The *102MC* Industrial Media Converter is designed to allow the connection of 10/100BaseTX Ethernet devices to your 100BaseFX fiber cabling infrastructure.

The *102MC* provides one RJ-45 auto sensing 10/100BaseTX port and one 100BaseFX port. The RJ-45 port is full/half duplex capable, using "state of the art" Ethernet switching technology. The *102MC* auto-negotiates the speed and flow control capabilities of the TX copper port connection, and configures itself automatically. The 100BaseFX fiber optic port utilizes industry standard ST or SC connectors and is configured for full duplex operation. Both multimode and singlemode fiber models are available.

Unlike most media converters the *102MC* uses switching technology. This means that 10Mbps devices can be connected today and upgraded to 100Mbps devices later. The switching fabric simply scales up or down automatically to match specific network environments.

The *102MC* supports up to 2,000 MAC addresses, enabling these products to support extremely sophisticated and complex network architectures.

The *N-TRON 102MC* is well suited to convert 10/100 BaseTX industrial devices to fiber, allowing you to take advantage of the inherent advantages of fiber based infrastructure. Compared to copper based systems, fiber provides increased noise immunity and longer cable lengths.

The *102MC* has extended operating environmental specifications to meet the harsh needs of the industrial environment. For cost savings and convenience the media converter can be DIN-Rail mounted alongside Ethernet I/O or other industrial equipment.

The unique compact size provides a small footprint, conserving space in the most critical dimension. The *102MC* can also be panel mounted if desired.

To increase reliability, the *102MC* includes redundant power inputs. LEDs are provided to display the link status and activity of each port, as well as power on/off status.

40	for 40km max. fiber segment length	
80	for 80km max. fiber segment length	

BENEFITS

Industrial Media Converter

- · Compact Size, Small Footprint
- Converts 10/100BaseTX to 100BaseFX
- High Reliability/Availability
- Extended Environmental Specifications
- Hardened Metal DIN-Rail Enclosure
- High Performance
- High MTBF >2M Hours (measured)
- ESD Protection Diodes on RJ-45 Ports
- Surge Protection Diodes on Power Inputs

Ease of Use

- Plug & Play Operation
- RJ-45 Auto Sensing 10/100BaseTX Port
- RJ-45 Port Auto Senses Duplex, Speed, and Cable Type
- Compact DIN-Rail Package

Increased Performance

- Full Wire Speed Capable
- 100BaseFX Fiber Uplink
- Full Duplex Capable
- Eliminates Network Collisions
- Increases Network Determinism

Regulatory Approvals

FCC Title 47 Part 15 Subpart BClass A ICES-003- Class A CE: EN61000-6-2,4 EN61000-4-2,3,4,5,6 UL Listed (US and Canada) per ANSI/ISA-12.12.01-2000, Class I, Div 2, Groups A,B,C,D,T5; EN55011 Class A GOST-R Certified RoHS Compliant ABS Type Approval for Shipboard Applications DNV Type Approval for Shipboard Applications DNV Type Approval Certification EN50155 for Railway Applications Designed to comply with:
