## 29970400 SPECIFICATION

## Convex Lens LED for LCD

We recommend a minimum distance of 25mm from the end of plastic lens to the screen within the panel to achieve a uniform surface light.

## Technical Data:

1. LED chip size: 3.0mm x 3.0mm x 0.6T

2. LED chip input voltage: 2.8-3.6V

3. LED chip current: 500mA

4. LED power consumption (Type): 1.6W

5. Brightness:  $\geq$  140 Lm

6. Color coordinates: X = 0.0625 - 0.2717, Y = 0.2450 - 0.2650
