### Description

Ruland MT12-CSBC-M6-AN is a sensor bracket clamp connector that attaches to a 12mm round or 10mm square tube and has an M6 center tapped hole, 16mm width and height, and 32mm overall length. It is designed to fit on Ruland tubes and flange bolt bases that begin with MT12. MT12-CSBC-M6-AN is aluminum with a black anodized finish and screws are 304 stainless steel for added corrosion resistance when compared to unplated types. This bracket clamp is used to support brackets for mounting sensors, screens, reflectors, plexiglass machine guards, and other industrial components. The bracket is mounted directly to the clamp by a single M6 screw. An MT10:12-ALK-M5-20adjustable clamping handle can be used to rapidly reposition MT12-CSBC-M6-AN or the tube it is attached to without the use of tools. MT12-CSBC-M6-AN is manufactured by Otto Ganter, inventoried by Ruland, and RoHS3 compliant.
