Product Description

ShrinkTrak DS is a halogen-free, double-sided heat shrinkable marker with a 2:1 shrink ratio. HellermannTyton's unique ladder-style design assists in removing markers off the carrier. The side slits have been designed to ensure the wire entry gap is as large as possible while remaining on the carrier strip, enabling the user to quickly insert wire and cable into the marker. For a complete labeling solution, ShrinkTrak DS can be printed using HellermannTyton's TagPrint® Pro professional label creation software and thermal transfer printers. For double-sided printing, HellermannTyton's TrakMark DS double-sided printer produces excellent results. Choose among multiple ribbon types to create a permanent print that resists most solvents when shrunk and applied.
