Switch - 4-Port Desktop KVM Switch (PS/2)

Highlights

- KVM Switches control multiple computers with 1 keyboard, monitor and mouse console. Simple plug-and-play setup. Full compatibility will all major operating systems and support for most keyboards and mice
- Adapters allow you to control Mac or SUN computers through any Tripp Lite PS/2 KVM Switch
- Console Extender Kits keep a keyboard/monitor/mouse console highly accessible and a KVM Switch and connected computers highly secure, located up to 500 ft. away. Accepts two consoles: local (primary) and remote (secondary)
- Simple to use switches and adapters require no software or system configurations
- See "KVM Switch Cable Kits" for required cables
- Retail Packaging

Description

Tripp Lite's 4-port KVM Switch is the optimal solution for controlling up to 4 computers from one keyboard, mouse and monitor. Switch between computers simply by entering an easy hot key combination on the keyboard or by pushing the selector switch on the unit itself. The compact desktop design allows you to put the switch within easy view so that you can see the status LEDs. Installation is a snap - just connect the PCs to the switch using KVM cables. No software or complicated set-up procedures are required. The switch will function without external power in most cases, however an AC power supply has been provided in case additional power is needed (may be needed with a laptop PC). This PS/2 switch can be used to control a USB, Sun or Mac computer when adding the appropriate adapter. Retail Box.

System Requirements

- PS/2 mouse (or a USB mouse with USB-to-PS/2 adapter)
- PS/2 keyboard (or a USB or AT keyboard with a PS/2 adapter)
- PS/2 computer (or a Mac, Sun or USB computer with appropriate adapter).
- 1 x P753-006, P753-010, P754-006, P754-010, or P754-015 KVM cable kit per port.
