

Battery Holders – AAA Type

Two (2) AAA Cells – In Series

Features

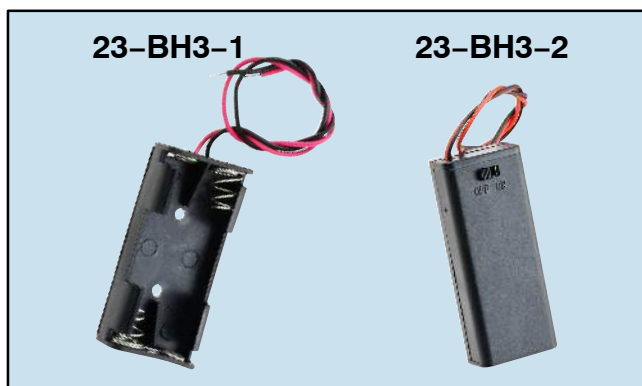

- Battery Securely Held in Place to Assure a Positive Connection and Maintain a Low Contact Resistance
- Contact Springs are Self-Adjusting to Accommodate Variations in Battery Length
- Withstands Shock and Vibration

Specifications

Holder: ABS Plastic

Springs: Brass, Nickel Plated

Wires (Red & Black): #26AWG, Tinned, .118 (3.0) End Strip

NTE Type No.	Description	Dimensions (W x H x D)
23-BH3-1	Battery Holder, Side-by-Side, with 150mm (5.9") Wires	2.071 (52.6) x .953 (24.2) x .520 (13.2)
23-BH3-2	Battery Holder, Side-by-Side, with 150mm (5.9") Wires, Cover, and ON-OFF Switch	2.469 (62.7) x 1.016 (25.8) x .618 (15.7)

Three (3) AAA Cells – In Series

Features

- Battery Securely Held in Place to Assure a Positive Connection and Maintain a Low Contact Resistance
- Contact Springs are Self-Adjusting to Accommodate Variations in Battery Length
- Withstands Shock and Vibration

Specifications

Holder: ABS Plastic

Springs: Brass, Nickel Plated

Wires (Red & Black): #26AWG, Tinned, .118 (3.0) End Strip

NTE Type No.	Description	Dimensions (W x H x D)
23-BH3-3	Battery Holder, Side-by-Side, with 150mm (5.9") Wires	2.039 (51.8) x 1.457 (37.0) x .500 (12.7)
