

# FDD6685

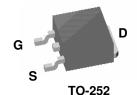

# 30V P-Channel PowerTrench® MOSFET

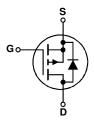

### **General Description**

This P-Channel MOSFET is a rugged gate version of Fairchild Semiconductor's advanced PowerTrench process. It has been optimized for power management applications requiring a wide range of gave drive voltage ratings (4.5V-25V).

### **Features**

- -40 A, -30 V.  $R_{DS(ON)}=20~m\Omega$  @  $V_{GS}=-10~V$   $R_{DS(ON)}=30~m\Omega$  @  $V_{GS}=-4.5~V$
- · Fast switching speed
- High performance trench technology for extremely low Resons
- · High power and current handling capability
- Qualified to AEC Q101

Absolute Maximum Ratings T<sub>A</sub>=25°C unless otherwise noted

### **Electrical Characteristics**

T<sub>A</sub> = 25°C unless otherwise noted

### Notes:

 R<sub>8JA</sub> is the sum of the junction-to-case and case-to-ambient thermal resistance where the case thermal reference is defined as the solder mounting surface of the drain pins. R<sub>8JC</sub> is guaranteed by design while R<sub>8CA</sub> is determined by the user's board design.

a)  $R_{\theta,JA} = 40$  °C/W when mounted on a  $1 \text{in}^2$  pad of 2 oz copper

b)  $R_{\theta JA} = 96^{\circ}C/W$  when mounted on a minimum pad.

Scale 1:1 on letter size paper

2. Pulse Test: Pulse Width < 300µs, Duty Cycle < 2.0%

3. Maximum current is calculated as:  $\sqrt{\frac{P_i}{R_{DS}}}$ 

where  $P_D$  is maximum power dissipation at  $T_C = 25^{\circ}C$  and  $R_{DS(on)}$  is at  $T_{J(max)}$  and  $V_{GS} = 10V$ .

4. Starting  $T_J = 25^{\circ}C$ , L = 0.69mH,  $I_{AS} = -11A$

#### AUTHORIZED USE

Unless otherwise specified in this data sheet, this product is a standard commercial product and is not intended for use in applications that require extraordinary levels of quality and reliability. This product may not be used in the following applications, unless specifically approved in writing by a Fairchild officer: (1) automotive or other transportation, (2) military/aerospace, (3) any safety critical application – including life critical medical equipment – where the failure of the Fairchild product reasonably would be expected to result in personal injury, death or property damage. Customer's use of this product is subject to agreement of this Authorized Use policy. In the event of an unauthorized use of Fairchild's product, Fairchild accepts no liability in the event of product failure. In other respects, this product shall be subject to Fairchild's Worldwide Terms and Conditions of Sale, unless a separate agreement has been signed by both Parties.

### ANTI-COUNTERFEITING POLICY

Fairchild Semiconductor Corporation's Anti-Counterfeiting Policy. Fairchild's Anti-Counterfeiting Policy is also stated on our external website, www.fairchildsemi.com, under Terms of Use

Counterfeiting of semiconductor parts is a growing problem in the industry. All manufacturers of semiconductor products are experiencing counterfeiting of their parts. Customers who inadvertently purchase counterfeit parts experience many problems such as loss of brand reputation, substandard performance, failed applications, and increased cost of production and manufacturing delays. Fairchild is taking strong measures to protect ourselves and our customers from the proliferation of counterfeit parts. Fairchild strongly encourages customers to purchase Fairchild parts either directly from Fairchild or from Authorized Fairchild Distributors who are listed by country on our web page cited above. Products customers buy either from Fairchild directly or from Authorized Fairchild Distributors are genuine parts, have full traceability, meet Fairchild's quality standards for handling and storage and provide access to Fairchild's full range of up-to-date technical and product information. Fairchild and our Authorized Distributors will stand behind all warranties and will appropriately address any warranty issues that may arise. Fairchild will not provide any warranty coverage or other assistance for parts bought from Unauthorized Sources. Fairchild is committed to combat this global problem and encourage our customers to do their part in stopping this practice by buying direct or from authorized distributors.
